MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 1, 1941

*To the Honorable Members of the Senate
Sacramento, California*

GREETINGS: I am pleased to inform you that I have received from the Clerk of the House of Representatives of the United States certification that pursuant to Section 22, Subdivision (B), of the Act of Congress of the United States of America entitled "An act to provide for the fifteenth and subsequent decennial censuses and to provide for apportionment of Representatives in Congress," approved June 18, 1929, as amended by public, numbered 481, Seventy-sixth Congress, approved April 25, 1940, that the State of California shall be entitled, in the Seventy-eighth Congress and in each Congress thereafter until the taking effect of a reapportionment under said act, as amended, or subsequent statute, to 23 Representatives in the House of Representatives of the Congress of the United States.

I have caused to be filed with the office of the Secretary of State the original of this official document.

Respectfully yours,

CULBERT L. OLSON, Governor of California

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, March 31, 1941

*To the Senate and Assembly
of the California Legislature*

GREETINGS: I present herewith a copy of a resolution adopted by the Legislature of the State of Utah and approved by the Governor of that State on March 17, 1941, entitled "Memorializing Congress to initiate a movement to give silver a standing in the Monetary System of the United States of America as a basic money, at a given ratio of silver to gold."

It is in pursuance to and out of respect to the request made by the Legislature of Utah that I send you copy of this resolution.

Respectfully submitted,

CULBERT L. OLSON, Governor of California

S. C. M. No. 1—By Mr. Williams

Memorializing Congress to initiate a movement to give silver a standing in the Monetary System of the United States of America as a basic money at a given ratio of silver to gold.

Be it resolved by the Legislature at the State of Utah, the Governor memorializing therein:

WHEREAS, The people of this State and the Nation are interested in having some basic money which will freely pass current to help encourage the trade of the United States with foreign countries; and

WHEREAS, Some foreign countries are improving the United States of its rightful share of world trade by a system of controlled and managed money and by the exchange and barter of the products of said various Nations instead of the use of money; and

WHEREAS, Previous to now, dissipation of gold and silver deposits have been made only where surface indications give a probability the existence of such resources; and

WHEREAS, If a proper plan for these matters is accepted through the amendment of silver, deposits of gold and silver now hidden beneath the surface of the earth will be opened; and

WHEREAS, All efforts heretofore made in the direction of currency substitution have been based upon the theories which failed to provide for the substitution of silver; and

WHEREAS, In order to relieve the present worldwide depression it is necessary either to provide for extension of debt payment and employment to them, or to provide for a managed currency, or, to provide exchange of gold and silver in some relation to each other; and

WHEREAS, The exchange of gold and silver is the best means; and

WHEREAS, It appears necessary for the purpose of securing an increasing trade with various countries by the United States that a system of money be adopted which is readily available to the various countries with whom the United States trades; and

WHEREAS, The United States of America, over a period of time has increased domestically mined silver at a fixed price pursuant to act of Congress; and

WHEREAS, The Congress has treated silver as a commodity instead of a monetary basis of metallic money; and

WHEREAS, The Government of the United States has, through sound and wellfounded measures, attempted to alleviate the result of unemployment throughout the United States; and

WHEREAS, Because of the low price of silver many mines in the United States have been unable to operate and consequently many thousands of miners have been thrown out of employment and their wives and children and themselves have become dependent on relief; and

WHEREAS, When the silver prices close down the smelters which are the largest consumers of coal within the State, except smelting used in steel materials, affects the railroads and their employees. That the families of the coal, silver miners, and railroad employees become dependent upon relief. That local farmers who find a ready market among the miners, and the railroad men lose their markets so that the closing of silver mines, affects not only the silver mines, but also the coal miners, railroad men, the farmers, and the Nation in general. All classes then become at least partially dependent upon relief and the burden thereby is upon the entire State or States; and

WHEREAS, The making of silver as a part of the Monetary System of the United States at a given ratio to gold would stabilize the mining industry and allow reemployment of miners, railroad men and lessen the relief fund; now therefore be it

Resolved, by the Legislature at the State of Utah the following memorializing therein, That we earnestly recommend the enactment of legislation by Congress for the use of silver in our monetary systems as a basic money, thereby increasing the supply of metallic money for use as a circulating medium and as a base for currency and credit at a ratio to gold as hereinabove provided; and be it further

Resolved, That the Secretary of State forward copies of this memorial to the President of the United States, the Vice President of the United States, the Speaker of the House of Representatives of the United States, the Congress of the United States, the United States Senators and Representatives from the State of Utah, and to the Governors of the various States, with the request that the said Governors submit it for action by the Legislators of their States.

At the time of filing an application for a permit to issue securities, the applicant shall file with the Commissioner of Corporations a bond to be approved by the commissioner on which the applicant shall be liable in the sum of one thousand dollars (\$1,000) with one or more sureties, to be approved by the commissioner, whose liability as such sureties shall not exceed the amount of the aggregate. The said bond shall run to the State for the use of the State and of any person or persons who may have cause of action against the applicant and bond under the provisions of this act. Such bond shall be approved and the sureties will fully conform to and abide by the provisions of chapter and part of the Company Securities Act, and of all rules and regulations lawfully made by the Commissioner under either of such acts, and will pay to the State and to any such person or persons and all persons that may become due or owing to the State or to such person or persons from and obligor under and by virtue of the provisions of this act and of the Corporate Securities Act."

If the commissioner shall find at any time that the bond is insecure or exhausted in whole or in part or otherwise insufficient, an additional bond to be approved by him with one or more sureties to be approved by him and of the character specified in this section, in the sum of not more than the first bond (\$1,000), shall be filed by the industrial loan company, within thirty days after written demand therefor, made in due company by the commissioner.

If a bond or additional bond as hereinafore provided is filed, on file, no further bond may be required to be filed with subsequent applications. This provision, however, does not prevent the commissioner from providing additional bonds in place provided in connection with or without any relation to any corporation to sell and issue securities.

Sec. 14. In addition to the notices and information required by the Corporate Securities Act, applications for permits to issue securities made by corporations organized under this act shall set forth therein:

(a) The addresses of all offices at which business is proposed to be transacted.

(b) The names, residence addresses and business addresses of all officers and directors.

(c) The names and addresses of subscribers to the capital under the amount of capital stock subscribed, the amount paid thereon, the balance due and dates of the subscription agreements.

(d) Statements as to the experience, character, general fitness and financial responsibility of the officers, directors and managers.

The application shall set forth such further information as the commissioner may require.

In addition to the duty of the commissioner to examine the application pursuant to the provisions of the Corporate Securities Act, it shall be his duty to investigate the matters and facts set forth in the application as required by this act and to conduct such further investigation as he may deem necessary, and if he shall find that the financial responsibility, experience, character and general fitness of the applicant, and of the officers and directors thereof, are not such as to command the confidence of the community and to warrant the belief that the business will be conducted honestly, fairly and efficiently within the purposes of this act, he shall deny the application and refuse the permit.

The existence of any fact or condition which, if it had existed at the time of filing the application for a permit, would have warranted the commissioner in refusing to issue such permit shall be ground for the annulment, alteration, suspension or suspension of such permit in addition to the grounds specified by the Corporate Securities Act.

Sec. 15. For the purpose of discovering violations of this act or securing information lawfully required by him hereunder, the commissioner may at any time, either personally or by a person or persons duly designated by him, investigate the loans and business and examine the books, accounts, records and files used therein, of every corporation which shall be engaged in the business of an industrial loan company or broker, whether such corporation shall act or claim to act as principal or agent, or under or without the authority of this act. For that purpose the commissioner and his duly designated representatives shall have free access to the offices and places of business, books, accounts, papers, records, files, safes and vaults of all such corporations. The commissioner shall have authority to require the attendance of witnesses

and to examine under oath all persons whomsoever whose testimony he may require relative to such loans or such business or to the subject matter of any examination, investigation, or hearing.

The commissioner shall make such an examination of the affairs, business, office and records of each industrial loan company at least once each year. The actual cost of that examination shall be paid to the commissioner by every industrial loan company so examined, and the commissioner may maintain an action for the recovery of such costs in any court of competent jurisdiction.

Whenever, after an examination, investigation or hearing under this act, the commissioner deems it of public interest or advantage, he may certify a record to the proper prosecuting official of the county, city and county, or city in which the act or acts complained of, examined or investigated, occurred.

SEC. 16. Each industrial loan company shall keep and use in its business such books, accounts and records as will enable the commissioner to determine whether such industrial loan company is complying with the provisions of this act and with the rules and regulations lawfully made by the commissioner hereunder. Every industrial loan company shall preserve such books, accounts and records, including cards used in the card system, if any, for at least two years after making the final entry on any loan recorded therein.

Each industrial loan company shall annually on or before the fifteenth day of March file a report with the commissioner giving such relevant information as the commissioner reasonably may require concerning the business and operations during the preceding calendar year of each place of business conducted by such industrial loan company within the State. Such report shall be made under oath and shall be in the form prescribed by the commissioner, who shall annually make and file with the Division of Corporations as a public record a composite of such reports and any comments thereon that he may deem to be in the public interest.

SEC. 17. No industrial loan company or other person shall advertise, print, display, publish, distribute, or broadcast or cause or permit to be advertised, printed, displayed, published, distributed, or broadcast, in any manner whatsoever any statement or representation with regard to the rates, terms, or conditions for making or negotiating loans, which is false, misleading, or deceptive, or which refers to the supervision of such business by the State of California or any department or official thereof. The commissioner may order any industrial loan company to desist from any conduct which he shall find to be a violation of the provisions of this act or of the Corporate Securities Act or of the rules of the commissioner under said acts.

The commissioner may require that rates of charge, if stated by an industrial loan company, be stated fully and clearly in such manner as he may deem necessary to prevent misunderstanding thereof by prospective borrowers.

If any industrial loan company or other person engaged in the business regulated by this act shall in any advertising refer to rates of interest or charges or cost of loans, the commissioner shall require that such rates or costs be stated fully and clearly in such manner as he may deem necessary in order to give adequate information to prospective borrowers, and if the rates or costs advertised do not apply to loans of all classes made or negotiated by such industrial loan company or other person, this fact shall be clearly indicated therein. No such advertising copy shall be used after the use thereof has been disapproved by the commissioner and the industrial loan company notified in writing of such disapproval. The commissioner may require the industrial loan company to maintain a file of all advertising copy for a period of 90 days from the date of its use, to be available to the commissioner upon request.

No industrial loan company shall conduct the business of making loans under this act within any office, room, or place of business in which any other business is solicited or engaged in, or in association or conjunction therewith, except as may be authorized in writing by the commissioner upon his finding that the character of such other business is such that the granting of such authority would not facilitate evasions of this act or of the rules and regulations lawfully made hereunder.

No industrial loan company shall transact such business or make any loan provided for by this act under any other name than that set forth in the articles of incorporation or amended articles of incorporation as filed with the Commissioner of Corporations. Nor shall any industrial loan company transact such business or make any loan provided for by this act at any other place of business than that designated in its application filed with the Commissioner of Corporations, without having obtained the prior written approval of the commissioner.

No industrial loan company shall take any confession of judgment or any power of attorney, except a power of attorney taken to effectuate the transfer of the ownership of any motor vehicle at the time of making the loan. No industrial loan company shall take any note, promise to pay, or security that does not accurately disclose the actual amount of the loan, the time for which it is made, and the agreed rate of charge nor any instrument in which blanks are left to be filled in after execution.

SEC. 18. No industrial loan company shall induce or permit any borrower to split up or divide any loan. No industrial loan company shall induce or permit any person, nor any husband and wife jointly or severally, to become obligated,

directly or contingently or both, more than the net contract of loan at the same time, with the result of obtaining a higher rate of charge than would otherwise be permitted by this act.

No charges including interest on loans made under this act shall be paid, deducted, or received in advance, or compounded. All charges including interest on loans under this act shall be computed and paid only as a percentage per month of the unpaid principal balance or portion thereof, and they shall be so expressed in every obligation signed by the borrower, and they shall be computed on the basis of the number of days actually elapsed, for the purpose of which computation a month shall be any period of 30 consecutive days. In addition, to the charges herein permitted no amount whatsoever shall be levied or indirectly charged, demanded for, or received, by the industrial loan company or the holder, at any other person, and the total charges of the industrial loan company and holder and any other person in the aggregate shall not exceed the maximum rate provided in this act.

If any amount in excess of the charges permitted by this act including interest is charged, contracted for, or received, the contract of loan shall be void, and neither the industrial loan company nor any other person shall have any right to issue or receive any principal, interest, charges, or compensation whatsoever.

SEC. 19. Every industrial loan company hereinafter shall:

(1) Before or cause to be delivered to the borrower at the time of making of the time the loan is made, a statement in the English language showing in clear and distinct terms the amount and nature of each particular loan company and the broken, if any, the date, amount and maturity of the loan company, and what repayable, the nature of the security, if any, for the loan, and the agreed rate of charge.

(2) Obtain from the borrower a signed statement as to whether any person has performed any act as a broker in connection with the making of the loan, and if such statement discloses a person or other person has participated, then a full statement of all sums paid or payable to the broker or other person shall be obtained and kept by the industrial loan company for a period of two years from and after the date the loan has been paid in full or has matured according to the terms agreed or has been charged off.

(3) Permit payment to be made by interest to any amount on any contract of loan at any time, but the industrial loan company must upon each payment due to all charges due at the stated rate up to the date of such payment, and in excess the maximum rate herein provided.

(4) Deliver or cause to be delivered to the person making any payment at the time such payment is made an amount of any note, a form and receipt receipt showing the total amount received and identifying the loan contract upon which such payment is applied, and setting the unpaid principal balance, if any, of such loan.

(5) Upon repayment of any loan in full, release its security, if any, and return any certificate of ownership, cancel or destroy such "note" and return to the borrower or person making such payment any other similar documents, instrument or order signed by the borrower, except such as are a part of the loan made in any action, or such as have been delivered to a third person for the purpose of carrying out the terms thereof.

Every industrial loan company shall display prominently in each place of business a full and accurate schedule to be approved by the commission, of the charges to be made and the method of computing the same.

SEC. 20. The payment of money, credit, goods or things in full for consideration for any sale or assignment of an order for, the payment of wages, salary, commissions, or other compensation for services, whether earned or to be earned, shall, for the purposes of regulation under this act, be deemed a loan secured by such assignment, and the amount by which such assigned compensation exceeds the amount of such consideration actually paid shall, for the purposes of negotiation under this act, be deemed interest and charges upon or for such loan from the date of such payment to the date such compensation is payable. Such transaction shall be governed by and subject to the provisions of this act. Nothing contained in this section shall be construed as modifying or affecting existing statutes governing wage assignments in the State of California, or as authorizing such assignments.

SEC. 21. No industrial loan company or any other person in connection with or incidental to the making of any loan, may require the borrower to contract for, purchase, or agree to purchase any other thing in connection with the loan, other than an installment investment certificate of a face value equal to the principal amount of the loan, and no industrial loan company or any other person in connection with or incidental to the making of such loan shall require the borrower to enter into any collateral sales agreement or contract, other than the contract of pledge, assignment or mortgage of personal property by the borrower to the lender as security for the repayment of the loan and charges thereon. The industrial loan company shall deliver to the borrower at the time of making the loan an amount to be retained by the borrower equal to the face value of the loan and note evidencing same.

Any profit or advantage of any kind whatsoever that any industrial loan company or broker or any other person may contract for, collect, receive or in anywise obtain

by a collateral sale, purchase or agreement, in connection with the negotiating, arranging, making or otherwise in connection with any loan, except commissions received as a licensed insurance agent or broker on insurance written as hereinafter permitted, shall be deemed to be charges for the purposes of regulation under this act. Such transactions shall be governed by and subject to the provisions of this act. However, security consisting of tangible personal property offered as security may be reasonably insured against loss for a reasonable term, considering the circumstances of the loan; and such insurance shall not be deemed such collateral sale, purchase or agreement when the policy is payable to the borrower or any member of his family, even though the customary mortgagee clause is attached or the industrial loan company is a coassured; provided, that such insurance is sold at standard rates through duly licensed insurance agents.

SEC. 22. Any person and the several members, officers, directors, agents, and employees thereof, who shall violate or participate in the violation of any of the provisions of the rules, orders and regulations of the commissioner, or of this act, shall be guilty of a misdemeanor.

Any contract of loan in the making or collection of which any violation of this act shall have been committed, shall be void, and neither the industrial loan company nor any other person shall have any right to collect or receive any principal, interest or charges whatsoever.

SEC. 23. Every order, decision, license or other official act of the commissioner shall be subject to review in accordance with law. Upon such review, the burden of proof shall lie upon the appellant, and the court shall receive and consider any pertinent evidence which was introduced in the formal hearing before the commissioner, whether oral or documentary, concerning the action of the commissioner under review, but shall be limited to a consideration and determination of the question whether there has been an abuse of discretion on the part of the commissioner in making such order, decision, finding, requirement, or rule.

SEC. 24. If any clause, sentence, section, provision, or part of this act is adjudged to be unconstitutional or invalid for any reason by any court of competent jurisdiction, such judgment shall not impair, affect, or invalidate the remainder of this act, which shall remain in full force and effect thereafter.

SEC. 25. Nothing in this act impairs or affects any loan contract entered into between any industrial loan company and a borrower prior to the effective date of this act.

SEC. 26. Short Title. This act shall be known as the "Industrial Loan Act."

SEC. 27. Any corporation heretofore or hereafter organized under any other law of this State and not expressly stated in its articles of incorporation to be incorporated under the act entitled "An act defining industrial loan companies, providing for their incorporation, powers and supervision," approved May 18, 1917, may be brought under the provisions of said act as amended or revised by amending its articles of incorporation in the manner prescribed by Title 1, Part 1, Division 1 of the Civil Code, to expressly state in its articles of incorporation that it is thereafter subject to the provisions of the aforesaid act as amended or revised, and thereupon it shall be deemed to be organized and existing under and entitled to the benefits of and subject to the provisions of the aforesaid act as amended or revised for all purposes and as fully as though it had been originally organized thereunder."

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the passage of Senate Bill No. 1260:

COMMUNICATIONS

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
 SACRAMENTO, April 2, 1941.

Honorable Jerrald L. Seawell, Senate Clerkless
 State Capitol, Sacramento, California.

REQUEST NO. 1192

SUBJECT: Senate Bill No. 235, as amended on Senate March 31, 1941

DEAR SENATOR SEAWELL:

Question

You have inquired whether an amendment to this bill designed to permit the Board of Barber Examiners to fix a minimum price schedule for barber services in a particular city or county only after petition by 75 per cent of the barbers in that city or county would render the bill unconstitutional.

Opinion

In our opinion, such an amendment might furnish the basis for holding the bill unconstitutional.

Analysis

Price regulation, unlike other exercises of the police power, is curiously limited by the courts. Although since *Veblen vs. New York* (1934) 291 U. S. 592, the State courts have generally validated price regulation for the protection of the public health, per se, strict standards as to methods have been imposed. Thus in *Hallingsworth vs. State Board of Barber Examiners*, (Ind. 1940) 28 N. E. (2d)

64, the court admitted the validity of the Louisiana statute on which the California bill is based, but distinguished its own law as follows:

"This act does not declare a public policy applicable to the whole State nor to legislatively classified parts thereof. It merely undertakes to say what the law shall be in those undetermined and unascertainable areas where 80 per cent or more of the licensed barbers take the necessary steps to obtain such a law . . ."

"It is not conceivable that the laudable objectives of the law might therefore be defeated by the very persons whose unfair practices and unsanitary methods presumably induced its enactment."

In *Gilson Auto Co. vs. Finnegan* (1935) 217 Wis. 401, 259 N. W. 420, quoted in the *Hollingsworth* case, the court said of a similar statute:

"It is difficult to conceive of a more complete abdication of legislative power than is involved in this act. Not only is the power to determine whether or not there shall be a law at all delegated to an indefinite class or group, but the Governor and all other public officers are rendered powerless to act except upon the initiative of a preponderant majority of a group."

A 1937 California case, *In re. Kazas*, 22 C. A. (2d) 161, has cast doubt on price regulation as a means for securing the economic welfare of barbers. The present measure can be upheld only as a means to the protection of the public health. And as a public health measure it should be enforceable wherever needed, whether desired by 75 per cent of the barbers in that area or not.

Very truly yours

FRED B. WOOD, Legislative Counsel

A Bill

To establish a Congressional Budget Service in the Executive Branch of the Government, and for other purposes.

SEC. 2. For the purpose of determining a more accurate need program for the Congressional Budget Service and its authorized personnel, the work of the service as herein authorized shall be carried out under a Joint Committee on Appropriations, which shall be composed of five members of the House Appropriations Committee (three from the majority party, including the chairman, and two from the minority party chosen by him) and five from the minority party, including the ranking minority member and one other member of the minority party chosen by him), and five members of the Senate Appropriations Committee (three appointed by the chairman of the Senate Appropriations Committee, including the Chairman of the House and Senate Appropriations Committees).

SEC. 3. (a) At the head of the service there shall be a director, who shall receive a salary at the rate of \$10,000 a year. The director shall have general supervision of the service and shall perform any other duties as may be required upon him by law and the Joint Committee on Appropriations.

(b) There shall be in the service an assistant director, who shall perform a part at the rate of \$8,000 a year. In case of the absence of the director, or of his absence or disability, the functions of that office shall be exercised by the assistant director until a successor to the director is appointed, or until the director returns to his duties or the disability is removed, as the case may be. The assistant director shall perform such other duties as may be required by law.

(c) The director and the assistant director shall be appointed, without regard to political affiliations, and shall be the members of the service in person, the holder of their offices, jointly by the Chairman of the Senate Appropriations Committee and the Chairman of the House Appropriations Committee, and they shall be removed by such chairmen, jointly, for inefficiency, neglect of duty, or malfeasance in office.

(d) The director shall appoint, without regard to political affiliations, to the employment and compensation of civilians in the ranks of the United States and without regard to political affiliation, but when in the presence of those persons to perform the duties of their offices, consultants who are exceptionally qualified on matters relating to each of the following: (1) National defense, (2) Governmental budget matters, (3) agriculture, and (4) relief and public works. The reports and reports (in the manner prescribed by the Civil Service Law) and the recommendations (in the manner prescribed by the Classification Act of 1923, as amended) of such other officers and employees as may be necessary for carrying out the work of the Congressional Budget Service.

SEC. 4. (a) Under the direction of the Joint Committee herein established the Congressional Budget Service shall:

(1) Act in a liaison capacity between the House and Senate Appropriations Committees and the Executive Branch of the Government to furnish and coordinate such aid and information as such committees may request;

(2) Work closely with, and have the complete cooperation of, the Bureau of the Budget, the Treasury Department, the General Accounting Office, and all other departments and establishments of the Government. The powers and positions of all such departments and establishments shall be made known for instruction by the Congressional Budget Service upon request by the director, assistant director, or other duly authorized officer or employee thereof, and such departments and establishments shall submit to the Congressional Budget Service such reports as are deemed necessary by the director thereof for consideration by any of such committees. The director and the assistant director, or any other duly authorized officer or employee of the Congressional Budget Service, shall, for the purpose of securing such information, have access to and the right to examine any books, documents, papers, or records of any such department or establishment;

(3) Act in the capacity of an investigatory staff which shall assist the House and Senate Appropriations Committees in their scrutiny of the budget when submitted by the President;

(4) Conduct such investigations as may be necessary in order to determine the propriety of budget requests for specific agencies and activities;

(5) Prepare, or cause to have prepared under its direction, brief outline summaries of budget data in popular form for broad dissemination among the public;

(6) Prepare, in consultation with the Bureau of the Budget, general and detailed plans of reduction of budget proposals when so directed by the Joint Committee to bring appropriations nearer to revenues; and

(7) Scrutinize the various reports, financial or otherwise, issued by the various departments and establishments and report to the Joint Committee their usefulness, relative accuracy, and effectiveness.

(b) The Congressional Budget Service, when directed by the Joint Committee on Appropriations, shall make a detailed study of any department or establishment for the purpose of enabling the Congress to determine what changes (with a view of securing greater economy and efficiency in the conduct of the public service) should be made in (1) the existing organization, activities, and methods of business of such department or establishment; (2) the appropriations therefor; and (3) the assignment of particular activities to particular services or the regrouping of services.

(c) The Congressional Budget Service, upon the request of the Joint Committee, shall present data justifying the reduction or elimination of any expenditure by any department or establishment.

(b) Quarters and space sufficient for the functioning of the Congressional Budget Service and its staff shall be provided in the Senate or House Office Buildings or the Capitol Building. Quarters shall also be provided, whenever necessary, in the Bureau of the Budget and the departments, independent offices, and commissions.

SEC. 6. There is hereby authorized to be appropriated annually such sums as may be necessary for the proper execution of this action under appropriations for the legislative branch of the Government.

RESOLUTIONS

The following resolutions were offered:

By Senator Kenny:

Senate Resolution No. 71

WHEREAS, The Senate has been deeply shocked and grieved to learn of the death, after a long illness, of H. L. Carnahan; and

WHEREAS, H. L. Carnahan distinguished himself by many years of faithful service in the business and political life of this State, having held the offices of Corporation Commissioner and Building and Loan Commissioner and having served as Lieutenant Governor and President of the Senate throughout the Forty-eighth Session of the California Legislature; and

WHEREAS, "Dick" Carnahan, as he was affectionately known to his many friends, was a gentleman well learned in the law and one of unusual kindness, patience and courtesy who enjoyed the love and respect of those who knew him, to a degree that is meted out to but few men; and

WHEREAS, His service as the Presiding Officer of the Senate during a particularly arduous session was noted as an example of fairness, deliberation and dispatch, maintaining a high degree of efficiency and dignity in the conduct of the business of the Senate; now, therefore, be it

Resolved, That the Senate of the State of California desires to make a lasting record of its regret at the loss that the State has suffered in the death of H. L. Carnahan and of its appreciation of his high quality of integrity, industry and, above all, his tolerant and kindly attitude toward his fellow man, to which end it is ordered that when the Senate shall adjourn this day it shall do so out of respect to his memory; and, be it further

Resolved, That the Secretary of this Body be instructed to have prepared appropriately engrossed copies of this resolution to forward to the survivors of H. L. Carnahan in token of sympathy in their bereavement.

Resolution read.

Address by Senator Slater

Senator Slater addressed the Senate as follows:

Mr. President and Gentlemen of the Senate:

Californian, and especially the old friends, hold a common sense value. Unexpectedly, the word has come telling of the death of H. J. Carnahan, one of California's most renowned citizens, a man of distinguished ability in his chosen profession of the law, a friend to countless people.

In the passing of Mr. Carnahan, many of us cherish bright memories and shining remembrances of his association with us and to him we dedicate with love, respect and kindly thought an honored page in our Book of Memory.

As Lieutenant Governor of California and by reason of that office, President of the State Senate, it will be ever remembered that he found his high office with loyalty and ability thereby establishing forever in the hearts and minds of those ever whom he officially presided a friendship that is lasting. Prior thereto, he had won the office of Corporation Commissioner, inaugurating the department upon a thorough basis and stimulating a conception and enforcement of the "Blue Sky Law" so that investors might be protected and businesses be conducted strictly as required.

Still later on in his ever willing public service when the administration of affairs by a strong, honest and capable official was necessary, Mr. Carnahan served California as its Building and Loan Commissioner and when he retired from this activity, he resumed his practice of the law in Los Angeles.

Despite the fact that our departed friend never enjoyed robustness of health and that it meant a constant reminder that too great strain upon his strength must be avoided, he never gave up his courage and determination that he would endeavor to make the world a bit brighter and happier by reason of his life. He was ever willing to counsel youth at the threshold of life and to endeavor to point the way to a career of usefulness and honor. He was unwavering in his loyalty as a citizen and his integrity was never challenged. He shared his scientific sympathies with the world in his profession just as he was ever willing to support the study of a faith long established as the crowning achievement of a noble, true life.

Somewhere, Mr. President and gentlemen, there is a promise given to the ages at the inception of life by Him who was the great friend and savior of humanity. "Be Thou Faithful Unto Death And I Will Give Thee a Crown of Life." Surely, as we sum up the inspiring chapters in the life of our friend, "Dick" Carnahan, we acclaim him heir to this distinction.

Membership of Local 526 Stationary Engineers voted unanimously at special meeting tonight to detail our membership to go into the district and work for defeat of any Senator or Assemblyman who votes for Assembly Bill No. 1545, Senate Bills Nos. 180, 877, 974, 975, 976, 560. We urgently request your vote against these vicious anti-labor bills.

JAMES A. THOMPSON, Business Representative
International Union of Operating Engineers Local 526

March 28, 1941

*James A. Thompson,
Representative International Union
of Operating Engineers Local 526
San Diego, California*

Your amazing dictatorial threatening telegram of March 27th received. My answer is you can go where the woodbine twineth. I assume Labor is responsible for the 1348 telegrams of protest on the bills mentioned which I received from San Diego within the last 24 hours. Am informed the same number of telegrams were received by Messrs. Daley, Stream and Richie, totalling nearly 6,000 sent within the last 24 hours and the cost of sending exceeds \$6,000. From what fund came the money to pay for these telegrams and do the individuals whose names are attached know the telegrams were sent?

In fairness will say most of the telegrams received were at least courteous. Senate Bills Nos. 877 and 975 passed the Senate last Tuesday. Neither you or anyone else from San Diego expressed an opinion against these bills until two days after they were passed by the Senate. It would appear somebody in San Diego connected

with Labor was asleep at the switch. I voted yes on these bills as my conscience dictated after hearing the arguments pro and con. Believe it or not, the best interest of the State and the majority of my constituents in general, the secondary benefit also I believe that a tentative negotiating agreement should be both parties should be enforceable in the courts giving the right of either party signing the contract to sue for damages in case of violation by either party. Your telegram is typical of Labor at its worst and helps to convince me of the overwhelming necessity of passing legislation to protect the public and the property owner. That is why the bill passed the Senate by a vote of 17 to 5. I am not ashamed of my Labor record in Sacramento. Any reasonable man having having been for 10 years in the ranks himself. Labor should not forget that it has more with molasses than with vinegar. Assuming now that I wish to compromise with Labor in every way possible consistent with the public interest, but there's no one cold.

COMMUNICATIONS

The following communication was received and read, and on motion of Senator Fletcher, ordered printed in the Journal:

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL.

SACRAMENTO, April 1, 1941

Honorable Ed Fletcher, Senate Chamber,
State Capitol, Sacramento, California

SUBJECT: Lobbying and Contempt
REQUEST: No. 1898

DEAR SENATOR FLETCHER: You have handed me a telegram and letter asking me for an opinion as to what can be done with relation to it.

The telegram referred to is in words and figures as follows:

"Membership of Local 526, Stationary Engineers, voted unanimously at special meeting tonight to demand our membership in 25 days. The meeting and work for the defeat of any Senator or Assemblyman who signs the Assembly Bill No. 1545, Senate Bills Nos. 180, 877, 974, 975, 990. We vigorously request your vote against these rogues and labor laws."

JAMES A. THOMPSON, Business Representative
International Union of Operating Engineers Local No. 526

It seems desirable to consider this matter first under the heading of

Lobbying

By Section 35 of Article IV of our Constitution it is provided that:

"Any person who seeks to influence the vote of a member of the Legislature by bribery, promise of reward, intimidation, or any other dishonest means, shall be guilty of lobbying which is hereby declared a felony."

By Section 18 of the Penal Code it is provided that:

"Except in cases where a definite punishment is prescribed by any law of this State, every offense declared to be a felony is punishable by imprisonment in any of the State prisons, not exceeding five years."

Section 85 of the Penal Code declares that:

"Every person who * * * attempts by menace, * * * or any corrupt means, to influence a member in going or attending his term, or in not attending the house or any committee of which he is a member, is punishable by imprisonment in the State prison not less than one nor more than 10 years."

The employment of persons to influence legislation in the departments of political departments is not always improper. The courts approve the appointment before legislative bodies or their committees of hired agents to appear before or oppose bills that are pending, but condemn the use of persons of secret or sinister influence, as being contrary to good morals and public policy. *Connelly vs. International Irrigation District*, 200 Cal. 318. Such approved action, however, does not constitute "lobbying" as this term is used in the Constitution. In *Le Tasson vs. Gilles*, 1 Cal. App. 546 at page 550, the court said:

"The term 'lobbying' has a well defined meaning in this country and signifies to address or solicit members of a legislative body in the house or elsewhere with the purpose of influencing their votes. * * *. It is not the policy of the law that the members of the Legislature should be solicited by the personal solicitation during the session of experienced and paid lawyers."

In the present case there appears to have been addressed to a duly elected and acting member of the Senate of California, at the time in session in Sacramento, while he was in attendance in the discharge of his official duty, and delivered to him in the Senate Chamber the above telegraphic message.

Whether or not this would be held to be lobbying under the above definition and thus to fall under the condemnation of the section of the Constitution above quoted, it was plainly meant to convey to the member of the Senate who received it the threat that if he voted in favor of the bills specified he would be opposed by the organized opposition of a specific body if he should again seek election as a member of the Legislature. In other words this appears to be an attempt to influence the member's vote on specified bills by a threat to seek his defeat should he again ask the franchise of his constituents—an attempt to stifle the free exercise

of his judgment pursuant to his oath of office by the threat to use organized opposition to deprive him of a right which is the property of every good citizen. This may be construed as "intimidation" which is one of the methods condemned by Section 35 of Article IV of the Constitution, or as a "menace" which is made punishable by Section 85 of the Penal Code.

In *Baldwin vs. Escanaba Liquor Dealers' Association*, 165 Michigan 98, the Supreme Court of Michigan declared that:

"Intimidation within the meaning of the law is not necessarily limited to threats of violence to persons or property."

In *Vigeland vs. Guntner*, 167 Mass. 92, at page 98, Justice Allen, delivering the opinion of the court, used virtually the same language and said further:

"There may be a moral intimidation which is illegal."

In *Allis-Chalmers Company vs. Iron Molders Union, etc.*, 150 Fed. 155, at page 173, Judge Sanborn, one of the most eminent of Federal judges, said:

"I understand the word intimidation to denote two kinds of coercion * * * (2) request or persuasion by or on behalf of a combination of persons to do or not to do something, resulting in coercion of the will from the mere force of numbers."

This situation may now be considered in the aspect of

Contempt

Whether traceable to the exemplary conduct of our citizens or to the forbearance of members of the Legislature or to some other cause, instances of punishment by the Legislature for contempt, except in the case of the refusal of witnesses to testify or to obey subpoena, are exceedingly rare. Consequently precedents pertinent to the present question are correspondingly scarce. Our Penal Code, however, expressly declares that that code

"does not affect any power conferred by law upon any public body, tribunal or officer to impose or inflict punishment for a contempt."

Beyond provisions relating to neglect of witnesses to obey subpoenas and the refusal to testify, our Political Code does not prescribe the method of dealing with contempts of the Legislature. The reason for this is undoubtedly reliance on the inherent power of the Legislature to deal with such matters.

The privilege of members from arrest (as provided in Section 11, Article IV of the Constitution) and other provisions and rules existing for the protection of members, some of which are inherent in legislative bodies, and have existed since the earliest history of such bodies, are provided, not for the protection of the individual member as a citizen, but for the protection of his representative capacity, in the interest of the people, and that he may be free to act in such capacity and to exercise calm and deliberate judgment on public questions. And so a representative body has "the power to punish as contempts those acts of members or others which tend to obstruct the performance of legislative duty, or to defeat, impede, or embarrass the exercise of legislative power." *Cooley's Constitutional Limitations*, 273, citing *Kilbourn vs. Thompson*, 103 U. S. 168.

Whether or not a contempt has been committed depends not on the intention of the party charged, but on the acts he has done. Per Chief Justice Taney in *Wartman vs. Wartman*, 29 Fed. Cas. No. 17210.

Conclusion

If the acts in this case constitute lobbying by intimidation under the language of the Constitution, the matter could be properly dealt with by the district attorney of the appropriate county, acting on his own initiative or on the representation of the Attorney General.

We think the acts disclosed here fall under the condemnation of both Section 35 of Article IV of the Constitution and Section 85 of the Penal Code.

Whether or not such acts constitute a contempt, and if so, the punishment therefor, it is for the Legislature to decide after notice and hearing.

If it appears that there have been other instances of this kind it may be desirable to have an investigation of the circumstances made by a committee of the Assembly who should report to that body findings and recommendations.

Very truly yours,

FRED B. WOOD, Legislative Counsel

"2650. To the extent and for purposes provided in this chapter, State grants shall be made to the counties, from money appropriated by other provisions of law, for the direct and administrative costs incurred by them under this chapter.

2651. Within the limits of this chapter, State money may be expended for relief when matched by the required share of county money. Every county may grant such medical assistance from county funds as may be necessary for the adequate relief of persons resident therein.

2652. From money appropriated therefor by other provisions of law, the State shall pay:

(a) The entire amount of the direct costs of relief incurred by a county under this chapter for the relief of (i) persons having no State and no county residence and (ii) persons having a State but no county residence.

(b) Two-thirds of the direct costs of relief incurred by a county under this chapter for the relief of persons having a State and a county residence, until the total cost to any county under this subdivision exceeds the amount expended by the county for the direct costs of indigent relief under this chapter during the fiscal year, 1939-1940, and any costs in excess thereof for the remainder of the current fiscal year shall be borne 90 per cent by the State and 10 per cent by the county.

(c) Two-thirds of the administrative costs incurred by a county under this chapter in administering relief to any person for whose relief the State bears the costs in whole or in part, not counting in the amount of such administrative costs so much thereof as exceeds 15 per cent of the total amount of State and county funds expended by the county for direct relief under this chapter. The department shall define administrative costs by rule and regulation.

2653. Prior to the beginning of each quarter, the department shall estimate the amount that will have to be paid upon the beginning of the quarter to each county from the amounts of State money appropriated for the direct and administrative costs of relief.

2654. The department shall make its estimate of the amount to be paid each county upon the basis of a report filed by the particular county containing:

(a) An estimate of the total sums that will probably be expended during the quarter by the county for the direct and administrative costs of relief for which it is entitled to receive State money.

(b) The amount appropriated or to be made available by the county for the quarter for that share of the direct and administrative costs of relief to be borne by it, and, if the total sum appropriated or made available by the county is less than that share it is required by law to bear, the source from which the difference is expected to be derived.

(c) Records showing the number of relief cases in the county.

2655. The department shall certify to the Controller the amounts estimated by it to be paid to each county, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or less than the amount which should have been paid to the county for such quarter, except to the extent that such sum has been applied to make the amount certified for any prior quarter greater or less than the amount estimated by the department for such prior quarter.

Upon the order of the department, the amount approved for the quarter may be paid in monthly installments and, if paid in monthly installments, all necessary adjustments for the prior quarters shall be made by additions or deductions from the allowance for the first month of each new quarter.

The Controller shall draw his warrant prior to audit or settlement by the department or the Controller and the State Treasurer shall pay to each county the amount certified.

2656. Reports of all money paid out by the counties for all costs of relief, both direct and administrative, shall be presented by the counties in the form and at the times prescribed by the department.

The reports shall be audited by the department and the Controller and when and in the amount approved shall be allowed to the county as a credit to apply against the advances made to the counties.

2657. Within 10 days after the beginning of each month for the month preceding, each county shall send to the department in such manner and form as the department may prescribe:

(a) The number of applications for relief granted.

(b) The grants of relief changed, revoked or suspended.

(c) Copies of all applications received and a statement of the action of the county on such applications.

2658. Notwithstanding any other provisions of law to the contrary or otherwise providing, all reimbursement secured from any relief case shall be divided between the State and the county in the same proportion that both or either thereof contributed to the direct costs of the case.

SEC. 14. Section 124 of said code is hereby amended to read as follows:

124. There is a Social Welfare Fund established in the State Treasury, in which fund there shall be deposited:

(a) All grants of money received by this State from the United States, the expenditure of which is administered through or under the direction of the State Department of Social Welfare.

Notwithstanding any of the provisions contained in this act or in any section amended, repealed or added by this act, all relief cases under the jurisdiction of the Relief Commission and the Relief Administrator shall become subject to the full, complete, absolute and separate jurisdiction of the State Department of Social Welfare upon the effective date of this act.

For this purpose, the State Department of Social Welfare shall have all the powers, duties, purposes, responsibilities and jurisdiction of the Relief Commission and the Relief Administrator under the California Unemployment Relief Act of 1935.

From the effective date of this act and until April 1, 1942, the State Department of Social Welfare may exercise all the powers, duties, purposes, responsibilities and jurisdictions granted to it under this section necessary or convenient to effect the transfer of all duties, powers, purposes, responsibilities and jurisdictions over the relief cases under the California Unemployment Relief Act of 1935 to itself and the counties in accordance with Chapter 2 of Division 4 of the Welfare and Institutions Code, and for this purpose the State Department of Social Welfare may continue in existence the administrative organization of the Relief Commission and the Relief Administrator as a separate unit of the State Department of Social Welfare.

Irrespective of whether the State Department of Social Welfare has transferred the administration of relief for a relief case to a county or not, the State shall bear all the direct costs of every relief case receiving relief under the California Unemployment Relief Act of 1935 on the effective date of this act and which after such date continuously receives such relief, until January 1, 1942, after which date the counties shall bear its proportion of the costs as determined under Chapter 2 of Division 4 of the Welfare and Institutions Code.

Immediately upon the effective date of this act, the State Department of Social Welfare shall undertake to determine the relief cases for which each county is responsible under Chapter 2 of Division 4 of the Welfare and Institutions Code, and to determine the amount of the direct costs connected therewith, which direct costs would in some part be borne by the county under Chapter 2 of Division 4 of the Welfare and Institutions Code if the case were subject to county administration. For all direct costs borne by the State after January 1, 1942, for relief cases receiving relief on the effective date of this act and continuously receiving relief after such date the administration of which has not been transferred to the counties, and any part of the direct costs of which would be borne from county funds under Chapter 2 of Division 4 of the Welfare and Institutions Code, the State shall retain from the funds thereafter advanced to the county for the direct costs of relief under Article 7 of Chapter 2 of Division 4 of the Welfare and Institutions Code, the amount which would be borne by the county from county funds had the administration of the case been transferred to the county.

Effective April 1, 1942, the California Unemployment Relief Act of 1935 is hereby repealed.

COMMUNICATIONS

A communication from the Interim Committee of Twenty-five of the California Conference on Government and Taxation was presented by the Secretary of the Senate, and ordered printed in the Journal:

INTERIM COMMITTEE OF TWENTY-FIVE
OF THE
CALIFORNIA CONFERENCE ON GOVERNMENT AND TAXATION

OFFICE OF THE CHAIRMAN
SAN FRANCISCO, April 4, 1941

*The Honorable Culbert L. Olson, Governor
and the Legislature of the State of California
Sacramento, California*

GENTLEMEN: After the lapse of much time, there is transmitted herewith Final Report of the Committee on State Organization, known as the Interim Committee of Twenty-five of the California Conference on Government and Taxation. The report is accompanied by bound volumes of reports (referred to in the committee's report as unpublished documents) of Griffenhagen & Associates, who were consultants of this citizens' committee.

Because of the wide scope of the report, considerable study of it will be necessary and it is hoped that such official study may proceed without delay. It is believed that the report and the supporting data afford a pattern for readjustment of functions of State Government that must necessarily result in efficiency and economy.

Copies of the report and bound volumes of Griffenhagen reports will be filed with the Attorney General, the Legislative Counsel, the Department of Finance, and also in the State Library and the libraries of the University of California, Stanford, University of Southern California, Los Angeles City, Commonwealth Club of California, Town Hall, Los Angeles, Bureau of Governmental Research, San Francisco, and a few other institutions having to do with civic affairs, for convenience of those institutions and the public. With the reports filed in the State Library and the City Library at Los Angeles, there will also be filed the only copies of Survey of the University of California, prepared at the committee's request by the staff of the University of California in cooperation with Mr. J. C. Bennett of the California Taxpayers' Association, under date of July 22, 1938, supplementing reports of the consultants.

Printed copies of the committee's report will be made available for all members of the State Legislature and heads of departments and other State agencies that may be affected.

Twenty members of the committee have voted to approve the report and, therefore, it has been approved in accordance with the committee rules. In this respect, we regretfully inform you of the death of Mr. W. I. Hollingsworth prior to completion of the report. Mr. E. S. Dulin tendered his resignation, by reason of frequent and extended absences on account of business. Mr. A. W. Hoch was in attendance at only a few conferences and Mr. Edward Vandeleur was unable to attend any, and neither has expressed approval or disapproval of the report.

As related to the portions of the report affecting fiscal organization in general, financial and revenue administration, the Treasury and the Auditor General, based upon rather exhaustive research, a constitutional amendment and bills were prepared and introduced in the Assembly late in the session of 1937. Assembly Constitutional Amendment No. 65 was drafted as complementary of the plan comprehended in Assembly Bill No. 2229, relating to Fiscal Code, Assembly Bill No. 2424, relating to the Auditor General, and Assembly Bill No. 2425, relating to Department of Revenue. Similar measures were proposed in 1939 and 1941.

Attention is respectfully invited to the foregoing as a basis for essential legislation affecting the portions of the program indicated.

It is perhaps not amiss to emphasize that this is a voluntary contribution of a committee of citizens whose objectives are nonpolitical, whose attitude toward administration is not fault finding, and whose proposals are not intended to reflect upon incumbent officials. However, it must be emphasized that incumbents of individuals must not interfere with essential readjustments to complete a plan of government which will permit efficient administration and consequent economy.

Respectfully,

F. V. KEESLING, Chairman

COMMUNICATIONS

A communication from Fred B. Wood, Legislative Counsel, relative to recessing on Good Friday, was received and read, and ordered printed in the Journal:

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, CALIFORNIA, April 7, 1941

Honorable W. P. Rich, President pro tempore

The Senate of California, Sacramento, California

REQUEST No. 2219

DEAR SENATOR: *You ask* whether or not a recess of the Senate from 12.30 p.m. of a Friday to 2 p.m. of the following Monday, in the absence of express consent thereto on the part of the Assembly, is or is not an adjournment "for more than three days" and thus a violation of the requirements of Section 14 of Article IV of the State Constitution.

It is our opinion that such a recess is not an adjournment for more than three days and therefore constitutes no violation of the requirements of said provision of the Constitution.

It is a settled general rule that fractions of a day are not considered in the computation of time. A day is regarded as a unit of time and not as an aggregation of a certain number of hours, minutes or seconds. (See 24 Cal. Jur. 577 and cases there cited.) There is an exception to this rule whenever it becomes important to determine the sequence of events that occurred upon one and the same day; but in our opinion that exception has no application to the facts involved in the question you have propounded.

Very truly yours,

FRED B. WOOD, Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT

Senator Foley asked for, and was granted, unanimous consent to retain Senate Bill No. 1274 on third reading file until the next legislative day.

COMMUNICATIONS

A communication from Fred B. Wood, Legislative Counsel, relative to Assembly Bill No. 271, was presented by Senator Kenny, and ordered printed in the Journal:

April 2, 1941

Memorandum for Hon. Robert W. Kenny

IN RE: Constitutionality of Assembly Bill No. 271 as proposed to be amended by Senate Committee on Judiciary, April 1, 1941, providing for the registration of certain organizations

REQUEST: 1920

Question

The question as to the validity of the above bill arises by reason of the enactment by Congress of Public Act No. 870, Seventy-sixth Congress, approved October 17, 1940, hereinafter referred to as the Voorhis Act. The specific question is whether by that act the United States Government has so occupied the field of registration of subversive organizations as to preclude enactment of legislation by this State as proposed by Assembly Bill No. 271, as proposed to be amended by the Senate Committee on Judiciary, April 1, 1941.

Opinion

While it is impossible to give an unqualified and conclusive answer to this question, the reasoning contained in the opinion of the majority of the United States Supreme Court in *Hines v. Davidowitz*, U. S., 85 Law Ed., 336 (which case held the Pennsylvania Statute for registration of aliens invalid in view of the enactment of the Federal Alien Registration Act) strongly indicates that in so far as the Voorhis Act provides for Federal registration of certain organizations, the provisions of Assembly Bill No. 271 requiring registration of the same organizations with the State would be held invalid.

There is, however, a substantial number of cases supporting the doctrine that an exercise by the State of its police power which would be valid if not superseded by Federal action is superseded only where the repugnance or conflict between the State and Federal law is so direct and positive that the two acts can not be fairly reconciled or consistently stand together.

Analysis

Both the Voorhis Act and Assembly Bill No. 271 provide that certain organizations and associations shall file statements of certain information with the Attorney General of the United States and the Secretary of State of this State, respectively, under heavy penalties.

Among the organizations and associations required to file statements by the Voorhis Act are those which:

- (1) (a) Are subject to foreign control, and (b) Engage in activities a purpose of which is the control by force or overthrow of the Government of the United States, any State, or a political subdivision;
- (2) (a) Engage in activities a purpose of which is the control by force or overthrow of the Government of the United States, any State, or a political subdivision, and (b) Instruct their members in military arts or science or drill or engage in military maneuvers, etc.;
- (3) (a) Are subject to foreign control, and (b) Instruct their members in military arts or science or drill or engage in military maneuvers, etc.;
- (4) Have as a purpose the establishment, seizure or overthrow of a Government or subdivision thereof by force, military measures, or threats thereof.

The organizations and associations which would be required to file statements with the Secretary of State of California if Assembly Bill No. 271 as proposed to be amended by the Committee were enacted into law are those which:

- (1) Teach the propriety of overthrowing the Government of the United States, this State, or any political subdivision thereof, by force or violence.
- (2) Are subject to foreign control.
- (3) Both teach the propriety of overthrowing the Government of the United States, this State, or any political subdivision thereof, by force or violence and are subject to foreign control.

The basic subject of the Voorhis act and of Assembly Bill No. 271 as proposed to be amended is identical—the registration of certain subversive organizations.

The case of *Hines v. Davidowitz*, 312 U. S. 504, decided on January 29, 1941, is authority for the proposition that where the Federal Government in the exercise of its superior authority in the general field of foreign affairs has enacted a complete scheme of regulation and has therein provided a standard for the registration of aliens, States can not, inconsistently with the purpose of Congress, burden or interfere with, curtail or complement the Federal law or enforce additional or auxiliary regulations.

The court further declares:

"There is not—and from the very nature of the problem there can not be—any rigid formula or rule which can be used as a universal pattern to determine the meaning and purpose of every act of Congress. This court, in considering the validity of State laws in the light of treaties or Federal laws touching the same subject, has made use of the following expressions: conflicting; contrary to; occupying the field; preemption; interference; incompatibility; inconsistency; violation; curtailment; and interference. But none of these expressions provides an infallible constitutional test or an exclusive constitutional yardstick. In the final analysis there can be no one rigid and clear distinctly marked formula. Our primary function is to determine whether, under the circumstances of this particular case, Pennsylvania's law stands as an obstacle to the accomplishment and execution of the full purpose and objectives of Congress. And in that determination, it is of importance that this legislation is in a field which affects international relations, the one aspect of our Government that from the first has been most generally conceded imperatively to demand broad National authority. Any concurrent State power that may exist is restricted to the narrowest of limits; the State's power here is not bottomed on the same broad base as is its power to tax. And it is also of importance that this legislation deals with the rights, liberties, and personal freedoms of human beings, and is in an entirely different category from State tax statutes or State Pure Food Laws regulating the sale of goods.

Our conclusion is that appellee is correct in his contention that the power to restrict, limit, regulate, and register aliens as a distinct group is not an equal and continuously existing concurrent power of State and Nation, but that whatever power a State may have is subordinate to supreme National law."

Applying the same reasoning to the instant situation it seems logical to conclude that the court would reach a similar conclusion as to Assembly Bill No. 271.

However, as pointed out by Mr. Justice Stone in the dissenting opinion in the same case at page 379, the United States Supreme Court in a number of cases there cited, held that the passage during the last war of the National Draft and the National Espionage Acts with their penalties for violation did not preclude a State making it a misdemeanor for any person to advocate that citizens of the State refuse to aid or assist the United States in carrying on a war.

In view of the opinion expressed by the majority of the United States Supreme Court in this case, we do not feel justified in concluding that a distinction exists between the situation there under discussion and the provisions of Assembly Bill No. 271 as proposed to be amended.

It is, however, within the realm of possibility that, if the question were presented, the court might distinguish between State and Federal laws regarding the registration of aliens and State and Federal laws regarding the registration of certain organizations upon the ground that the latter do not so directly affect foreign affairs or the relationship of the National Government with foreign sovereignities.

In the absence however of an opinion directly upon this point, we do not feel that it is safe to conclude that the United States Supreme Court would so hold if the question were presented.

Amendment No. 1

On page 1 of the printed bill, after line 5, insert

"9201. Any public cemetery district may acquire, by grant, gift, or any other method, cemeteries existing within the boundaries of a public cemetery district at the time of its formation.

9202. Any cemetery in which there has not been interred any human dead for the period of twenty-five (25) years may be declared an abandoned cemetery.

9203. Any public cemetery district having acquired a cemetery within its district boundary lines, as hereinbefore provided, may, by resolution of its board of directors, if no human dead have been interred therein for a period of twenty-five (25) years

immediately preceding the date of the resolution, declare the abandonment in whole or in part of the cemetery as a burial place for the human dead and for the removal of human remains interred therein to another cemetery or cemeteries within the boundaries of the district or, for the depositing of such remains in a memorial mausoleum, or columbarium as in this chapter provided.

9204. Any resolution or declaration for abandonment and removal duly adopted and made under the provisions of this chapter shall specify and declare that at any time after the expiration of two months after the first publication of the notice of declaration of abandonment and removal required to be published, as in this chapter set forth, the human remains then remaining in the cemetery or part thereof will be removed by the district owning or controlling the cemetery.

9205. Notice of the declaration of abandonment and the proposed removal of the human remains from any abandoned cemetery, or part thereof, shall be given, to all persons interested therein, by publication in a newspaper of general circulation published within the public cemetery district and most likely to give notice to the parties concerned. If no newspaper of general circulation is published in the district, then publication shall be made in a newspaper of general circulation published in the county within which the district is located. Publication shall be made once a week for four consecutive times. The notice shall be entitled "Notice of the Declaration of Abandonment of Lands for Cemetery Purposes and of Intention to Remove the Human Bodies Interred Therein" and shall specify a date not less than two months after the first publication of the notice when the district owning or controlling the cemetery lands and causing the notice to be published will proceed to remove the human remains then remaining in such cemetery, or part thereof.

9206. Copies of the notice so published shall within 10 days after the first publication thereof be posted in at least three conspicuous places in the cemetery from which the removal of the human remains interred therein are to be made, and a further copy of the notice shall be mailed to every person who owns or holds or has the right of burial in any lot, or plot in the cemetery, or part thereof, affected by the resolution or declaration of abandonment and removal, whose name appears as owner or controller upon the records of the cemetery. The notice so mailed shall be addressed to the last known post-office address of the respective lot owner or plot holder as the same appears from the records of the cemetery, and if no address appears or is known, then it shall be addressed to such persons at the county seat of the county in which the cemetery land is situated. Notice shall be mailed to any known living heir at law of any person whose remains are interred in the cemetery when the address of the heir is known.

9207. After the completion of the publication, posting and mailing of the "Notice of Declaration of Abandonment of Land for Cemetery Purposes and of Intention to Remove the Human Bodies Interred Therein," and after the expiration of two months as specified in the notice, the district owning or controlling the cemetery shall have power to cause the removal of all human remains interred in the cemetery, or part thereof, to be abandoned as a cemetery or burial place of the dead, and to cause the reinterment in other cemeteries in the district where burials are permitted, or to deposit the remains in a mausoleum or columbarium erected for that purpose, without further notice to any persons claiming any interest in the cemetery or part thereof, or in the remains therein interred.

9208. At any time before the date fixed for the removal of the remains by the district owning or controlling such cemetery land, any relative or friend of any person whose remains are interred in the cemetery or part thereof, from which it is proposed to make removal may give the district proposing to make removals, written notice that he or she desire to be present when the remains of a friend or relative, are disinterred or reinterred or deposited in a mausoleum or columbarium. The notice shall state the name of the person whose remains are referred to, and as accurately as possible shall describe the lot or plot where the remains are buried and the date of the burial, and shall specify an address to which the notice provided for in Section 9209 may be made. Notice may be delivered at the office or the principal place of business of the district owning or controlling the cemetery land and proposing to make removal, or may be forwarded thereto by registered mail.

9209. Upon receipt of such notice before the date fixed for the removal of the remains by the district proposing to make removals, it shall be the duty of the district to give written notice, to the persons giving the notice provided in Section 9208, of the time when the remains shall be disinterred and of the time when and the place where the same will be reinterred or deposited. The notice shall be given by delivery thereof at the address stated in the notice referred to in Section 9208, or by mailing the same to the person giving such notice, at the address stated, delivery or mailing to be made not less than ten (10) days prior to the date specified for the disinterment of such remains. Whenever written notice shall be given by a relative or a friend of any persons interred in the cemetery lands from which removals are proposed to be made, the district owning or controlling such cemetery land and proposing to remove the bodies interred therein shall not disinter the bodies until notice of time of such disinterment is given such relative or friend.

9210. At any time prior to the removal, by the district owning or controlling the abandoned cemetery land, of the remains of any persons buried in the abandoned

cemetery, any relative or friend of the person may voluntarily remove the remains and deposit the same as he may desire, provided, however, that the persons desiring to cause removal prior to such removal shall deliver to the district owning or controlling the abandoned cemetery, an affidavit, duly sworn to before an officer qualified to administer oaths, stating the name of the person whose remains it is desired to remove and further stating, so far as is known to affiant, the date of burial of the remains and the names and places of residence of the heirs at law of the deceased person.

9211. In the event that the person desiring to cause such removal is not an heir at law of the person whose remains he desires to remove, removal shall not be made by him until he shall have delivered to the district owning or controlling the abandoned cemetery a written consent of a majority of the known heirs at law of the deceased person who are residents of the State of California. The statements in the affidavit shall be sufficient evidence of the numbers, names and residence of the heirs at law for all the purposes of this chapter, and the written consent of the majority of the heirs at law named in the affidavit shall be sufficient warrant and authority for the district owning or controlling the abandoned cemetery to permit the removal of the remains by such persons.

9212. The purchaser or owner of any burial lot or plot in the abandoned cemetery, or part thereof, or of the right of burial therein or any one of the said purchasers of any lot or plot of burial land therein may cause the removal of any person or of the remains interred in such lot or plot without the necessity of signing any affidavit of consent as specified in Section 9210.

9213. If the right, title or interest of any grantee of any burial lot or plot of the abandoned cemetery, or the right of burial therein, shall have passed by succession to the heir or heirs at law of the grantee without formal distribution by order of court, the heir or heirs at law may remove the remains of persons interred in such lot or plot, and the affidavit of any heir at law setting out the fact of heirship shall be accepted by the district owning or controlling the abandoned cemetery and from which removals are to be made as sufficient evidence for all the purposes of this chapter of the fact of the transfer of title or right of burial to such heir, or heirs at law.

9214. Whenever the remains of any person shall have been removed from any abandoned cemetery, or the part thereof abandoned as a burial place under the provisions of this chapter, by the district having charge or control of the abandoned cemetery lands, the remains shall be transported and reinterred in any other cemetery lands, within the boundaries of the district having charge or control of the abandoned cemetery land or deposited in a mausoleum or columbarium as provided in this chapter.

9215. The remains of each person reinterred shall be placed in a separate and suitable receptacle and decently and respectfully interred under the rules and regulations now in force or that may be adopted by the district making removal. If the remains of any person removed from the abandoned cemetery are deposited in a memorial mausoleum or columbarium built for that purpose, each body removed shall be inclosed in a separate and suitable receptacle or container and shall be deposited in a decent and respectful manner, in accordance with the rules and regulations now existing or that may hereinafter be adopted by the district owning or controlling the abandoned cemetery lands.

9216. Whenever the remains of any person shall be removed from any abandoned cemetery by any relative or friend of such person, under the provisions of this chapter, the persons causing such removal shall also be entitled to remove any vault, monument, headstone, coping or other improvement appurtenant to the grave from which the remains have been removed, and the affidavit or written consent given under the provisions of Section 9210 shall be sufficient warrant and authority for the district owning or controlling the abandoned cemetery to permit the removal of any vault, monument, headstone, coping or other improvement appurtenant to the grave.

9217. Whenever the remains of any person buried in any lot or plot shall have been removed, and any vault, monument, headstone, coping or other improvement appurtenant thereto shall remain on the lot or plot for more than sixty (60) days after removal of the last human remains therefrom, the vault, monument, headstone, coping or other improvement may be removed and disposed of by the district owning or controlling the abandoned cemetery land, and thereafter no persons claiming any interest in the lot or plot or the vault, monument, headstone, coping or other improvement appurtenant thereto, shall have the right to maintain in any court, any action in relation to such vault, monument, headstone, coping or other improvement so removed or disposed of.

9218. Whenever a cemetery or part thereof has been abandoned as a cemetery or place of burial for the human dead, as provided in this chapter, by the district owning or controlling the same, the parts or portions thereof in which no interments have been made and the parts and portion thereof from which all human remains have been removed may be sold by the district owning and controlling the abandoned cemetery lands. No order of any court shall be required in order to make any sale

of lands abandoned for cemetery purposes and from which the human remains have been removed.

9219. Whenever any district shall have resolved upon the abandonment of any cemetery, or part thereof, and the removal of the human remains therefrom, under the provisions of this chapter, the district shall have power to employ any moneys in its treasury to defray the expenses of such abandonment and removal, including the expenses of purchasing additional lands or otherwise providing a suitable place for the interment or depositing of the remains, in any other cemetery, mausoleum, or columbarium within the boundaries of the district and under its control; also including the expenses of disinterment, transportation and reinterment, or the depositing of the remains in the mausoleum or columbarium; also including the expenses of the removal and disposal of any vaults, monuments, headstones, coping or other improvements which may remain after the human bodies are removed from any abandoned cemetery or part thereof; also including all necessary expenses incident to the sale of any lands; also including all other expenses necessarily incurred in carrying out the abandonment of the abandoned cemetery lands and the removal and reinterment or depositing of the bodies removed and all other expenses incident to any of the above purposes.

9220. Any moneys received by the district from the sale of the lands of the abandoned cemetery may be used for any purpose as the district may lawfully declare.

9221. Whenever any district shall remove human bodies or the remains thereof from any abandoned cemetery lands the district shall reinter or deposit or redeposit any human remains removed in the established cemetery of the district or in the mausoleum or columbarium owned or operated by the district; and thereafter the lots or plots, niches, compartments or receptacles in which the human remains removed have been reinterred or deposited shall be conveyed to the person or persons, if known, who owned the lot or plot in the abandoned cemetery from which the human remains were removed, and the conveyance shall be in full of all right, title and interest of any person or persons owning any lot or plot in the abandoned cemetery from which the human remains have been removed.

9222. In event of any person or persons owning any lot or plot of land within the abandoned cemetery in which no human remains have been interred, the directors of the district owning or controlling the lands of the abandoned cemetery, shall convey to such person or persons owning any lot or plot in the abandoned cemetery a lot or plot of equal dimensions in the cemetery owned and conducted by the district and such conveyance shall be in full of all right, title and interest in and to the lot or plot owned by such person or persons in the abandoned cemetery, and thereafter no person or persons claiming any interest in any such lot or plot shall have the right to maintain in any court an action in relation to such lot or plot owned by such person or persons in the abandoned cemetery.

9223. After the removal and reinterment or deposit in a mausoleum or columbarium of the human bodies disinterred from any abandoned cemetery, or part thereof, the district owning or controlling the abandoned cemetery lands and making removals shall cause to be erected upon or imbedded in any lot or plot wherein any such body is reinterred, a suitable permanent marker identifying the remains and shall prepare a complete record of the name of each person, where known, whose body was reinterred and deposited and the lot or plot in the cemetery or the niche or compartment in any mausoleum or columbarium where the body is reinterred or deposited and such record shall be kept on file in the office of the district making the removals and reinterments or depositing bodies in a mausoleum or columbarium and shall at all times be open to inspection of the relatives or friends of those so reinterred or deposited.

9224. After the removal of all human remains interred in any part or the whole of the cemetery lands abandoned as a burial place for the human dead as provided in this chapter, the district owning or controlling the abandoned cemetery lands may file for record in the office of the county recorder of the county or city and county in which the lands are situated, a written declaration reciting that all human remains have been removed from the part or portion of the lands described in the declaration. The declaration shall be acknowledged in the manner of the acknowledgment of deeds to real property by the president and secretary, or other corresponding officers, of the district owning or controlling the abandoned cemetery lands, and thereafter any deed or other conveyance of any part of such lands shall be conclusive evidence in favor of any grantee therein named, his successors or assigns, of the fact of the complete removal of all human bodies therefrom.

9225. In the disinterment, transportation, and removal of human remains made under the provisions of this chapter, it shall not be necessary for the district owning or controlling the abandoned cemetery lands to obtain from the board of health or health officer of the city, county, or town where the cemetery lands are located, a separate permit for the disinterment, transportation, or removal of the remains of each person so disinterred, transported, or removed, but disinterment, transportation, and removal of the human remains shall be made subject to reasonable rules and regulations relative to the manner of disintering, transporting

SEC. 43. No person shall deny or in any way interfere with the right of any other person to join, organize, or assist in organizing the labor organization of his choice.

SEC. 44. It shall be unlawful for any employer to interfere in any way with the organization of his employees, or to use his funds or facilities or assisting or contributing to any labor organization, labor representative or other agency of collective bargaining, or in performing any work therefor, or to influence or coerce employees in an effort to induce them to join or remain or not to join or remain members of any labor organization, or to deduct from the wages of employees any dues, fees, assessments, or other contributions payable to labor organizations, or to collect or assist in the collection of any such dues, fees, assessments, or other contributions. However, nothing in this act shall be construed to prohibit an employer from permitting an employee, individually, or local representatives of employees, from conferring with management during working hours without loss of time.

SEC. 45. If an employer or any of his employees notifies the Conciliator that a question exists as to the proper representative of the employees for the purpose of collective bargaining, it shall be the duty of the Conciliator immediately to ascertain the seriousness thereof and if in his judgment it can not be settled within a reasonable time, or if the employer or any of his employees demand that an election be held to enable the employees to select their representative, the Conciliator shall call an election within 10 days. The election shall be by secret ballot. The Conciliator shall determine the proper unit, group or class of employees who shall take part therein, and a majority vote of these so taking part shall prevail.

SEC. 46. No person shall picket a place of employment or strike or cause a lockout prior to or during the choice of representatives for the purposes of this act in the event of a question, whether presently existing or reasonably likely to occur, concerning the association or representation of persons in negotiating, fixing, maintaining, changing or seeking to arrange terms or conditions of employment, other than of agricultural laborers, regardless of whether or not the parties stand in the proximate relation of employer and employee.

Article 4. Negotiation, Mediation, and Conciliation

SEC. 60. Whenever a labor dispute develops to a stage where all the parties believe it can not be settled among themselves, or which threatens to result in a strike or lockout, they or one of them may notify the Conciliator.

The notice of dispute shall contain a brief statement of the facts.

Only one notice of dispute need be given with reference to any one dispute.

Upon receipt of such a notice the Conciliator shall summon both parties, or their representatives, to appear before him for a conference for the purpose of ascer-

taining the nature of the dispute and to determine whether or not it can be settled within a reasonable time without a formal hearing and investigation by a commission. If after the conference it should appear to the Conciliator that the dispute can not be settled by the parties themselves within five days, the Conciliator shall notify the appropriate commission which shall institute a formal hearing and investigation of all the facts pertaining to or affecting the dispute.

SEC. 61. Each representative of employer or employee shall upon being summoned to appear before the Conciliator file with the Conciliator in writing his authority to appear.

SEC. 62. The commission or its representative may present to the parties to the dispute at any time such information, advice, or recommendations as to it may seem fit and proper. At any time during a hearing, either party to the dispute may make an offer for a settlement and may present such arguments and information relative to such offer as are relevant, fit, or proper.

SEC. 63. Whenever such offer is made, the commission may, with the consent of all parties, conduct a vote of the employees affected by or involved in such labor dispute on any or all of such questions, disputes, or offers, by secret ballot. For that purpose the commission shall determine the proper unit, group, or class of employees who shall vote upon such questions, disputes, or offers.

SEC. 64. The majority of the votes cast at an election in which a majority of the employees in any group, unit, or class of employees involved in, or affected by, such labor dispute participate shall be final, conclusive, and binding upon all of the employees of the group, unit, or class; provided, that no employee shall thereby be required to render labor or service without his consent or against his will.

SEC. 65. All parties to the dispute shall have reasonable notice and opportunity to present to the commission such matters as may be relevant to the settlement of the dispute. Notice of hearing shall be given to the parties to the dispute in the manner and form as provided in this act.

SEC. 66. Hearings shall be held at such times and places as the commission in its judgment shall determine will best serve the public interest, having due regard to the convenience of the parties. All parties to the dispute shall be given reasonable notice of the time and place of such hearings as provided in this act. The commission shall have power to continue any hearing from time to time or from place to place and to bring in new parties as the circumstances may require.

SEC. 67. The commission in conducting such inquiry shall proceed with due diligence to complete its inquiry into the dispute and shall make in writing its findings and recommendations. The findings and recommendations shall clearly recite the nature of the controversy and the points of dispute. The recommendations shall be just and equitable in the premises, and such as will contribute to the settlement of the dispute on a basis fair to all concerned.

SEC. 68. Immediately upon the completion of the findings and recommendations, one copy thereof shall be furnished to each of the parties to the dispute.

SEC. 69. If the parties to the dispute shall notify the commission that they refuse to accept its recommendations, or if, after the lapse of a time deemed reasonable by the commission, it shall appear to the commission that the dispute will not be amicably settled by the parties, then the commission shall file one copy of its findings and recommendations with the Secretary of State and one copy with the county clerk of the county where the dispute exists, or is threatened, which copies shall be public records.

SEC. 70. Any recommendations issued by the commission after a hearing as provided in this act in which an increase in wages is recommended, may specify that said wage increase shall be retroactive; such recommendation shall indicate the effective date of such wage increase, which in no case shall be earlier than the formal request.

SEC. 71. No person shall picket a place of employment or strike or cause a lockout prior to or during the hearing of a dispute before a commission or while a dispute is being arbitrated under this act, whether or not the dispute is referred to a commission.

SEC. 72. At any time during a labor dispute other than one referred to a commission, the Conciliator may offer his good offices in effecting a settlement and such information, advice and recommendations to the parties as may seem fit and proper.

If any offer of settlement is made by any of the parties, the Conciliator may with the consent of all parties conduct a vote of the employees affected by or involved in such labor dispute on any or all of such questions, disputes, or offers in like manner and with the same effect as a commission may conduct a vote under Section 63.

Article 5. Arbitration

SEC. 90. Whenever a dispute is not settled in conference or through mediation, the commission shall suggest and request arbitration. In any case the dispute may, by agreement of the parties, be submitted to the arbitration of a board of arbitration composed of three, or if the parties so stipulate, of five persons.

SEC. 91. In the case of a board of arbitration of three members, each party to the dispute shall name one member, and these two shall choose the third. If, after their first meeting they fail to do so within five days, the Conciliator shall name the third. In the case of a board of arbitration of five members each party shall name

two members, and these four shall name the fifth. If they fail to do so within five days after their first meeting, the conciliator shall name the remaining member.

SEC. 92. When the arbitrators selected by the respective parties have agreed upon the remaining arbitrator, they shall notify the Conciliator and in the event of their failure to agree upon the necessary arbitrator within the period fixed by this act, they shall, at the expiration of such period, so notify the Conciliator.

SEC. 93. The board of arbitration shall organize, and select its own chairman, and make all necessary rules for the conduct of its hearings, provided, however, that the board of arbitration shall be bound to give the parties to the dispute a full and fair hearing, which shall include an opportunity to present evidence in support of their claims, and an opportunity to present their case, in person, by counsel, or by other representative as they may respectively elect.

SEC. 94. No arbitrator, chosen by the Conciliator shall be interested in the dispute or connected with the parties thereto.

SEC. 95. Each member of any board of arbitration created under the provisions of this act, named by either party to the arbitration shall be compensated by the party naming him. Each arbitrator selected by the arbitrators or by the Conciliator shall receive from the Conciliator such compensation as the Conciliator may fix, together with his necessary traveling expenses incurred while serving as an arbitrator.

SEC. 96. The board of arbitration shall furnish a certified copy of its award to the respective parties to the dispute. It shall transmit the original together with the papers, proceedings, and transcript of the evidence taken at the hearings, certified by at least a majority of the members of the board of arbitration, to the Conciliator.

SEC. 97. A board of arbitration may, subject to the approval of the Conciliator employ and fix the compensation of such assistants as it deems necessary to carry on the arbitration proceedings. The compensation of such employees and the necessary expenses of boards of arbitration shall be paid by the Conciliator from his funds.

SEC. 98. All testimony before a board of arbitration shall be given under oath or affirmation, and any member of a board of arbitration shall have the power to administer oaths or affirmations.

SEC. 99. All agreements to arbitrate under this act shall:

- (a) Be in writing.
- (b) Stipulate that the arbitration is had under the provisions of this act.
- (c) State whether the board of arbitration is to consist of three or of five members.
- (d) Be signed by the duly accredited representatives of the employer or employers and the employees, parties respectively to the agreement to arbitrate, and be acknowledged by the parties before a notary public or before the Conciliator, and when so acknowledged, be filed in the office of the Conciliator.
- (e) State specifically the questions to be submitted to said board of arbitration for decision.

(f) Provide that the questions, or any one or more of them, submitted by the parties to the board of arbitration may be withdrawn from arbitration on notice to that effect signed by the duly accredited representatives of all parties and served on the board of arbitration.

(g) Stipulate that the signatures of a majority of the board of arbitration affixed to its award shall be competent to constitute a valid and binding award.

(h) Fix a period from the date of the appointment of arbitrator or arbitrators necessary to complete the board within which the board of arbitration shall commence its hearings.

(i) Provide that the respective parties to the award shall each faithfully execute it.

SEC. 100. The award of the board of arbitration, having been acknowledged as provided in this act, shall be filed by the Conciliator in the office of the clerk of the superior court in and for the county in which the agreement was signed.

SEC. 101. An award acknowledged and filed as provided in this act shall be conclusive on the parties as to the merits and facts of the dispute submitted to arbitration, and unless, within 10 days after the filing of the award, a petition to impeach the award, on the grounds set forth in this act, shall be filed in the office of the clerk of the superior court in and for the county in which the award has been filed, the court shall enter judgment on the award, which judgment shall be final and conclusive on the parties.

SEC. 102. A petition for the impeachment or contesting of any arbitration award filed with the superior court shall be entertained by the court only on one or more of the following grounds:

- (a) That the award plainly does not conform to the substantive requirements laid down by this act for such awards, or that the proceedings were not substantially in conformity with this act;
- (b) That the award does not conform, nor confine itself, to the stipulations of the agreement to arbitrate;

(c) That a member of the board of arbitration rendering the award was guilty of fraud or corruption; or that a party to the arbitration practiced fraud or corruption which fraud or corruption affected the result of the arbitration.

However, no court shall entertain any such petition on the ground that an award is invalid for uncertainty; in such case the proper remedy shall be a submission of such award to a reconvened board, or subcommittee thereof, for interpretation.

SEC. 103. An award contested as provided in this act shall be construed liberally by the court, with a view to favoring its validity, and no award shall be set aside for irregularity or clerical error, going only to form and not to substance.

SEC. 104. If the court determines that a part of the award is invalid on some ground or grounds designated in this act as a ground of invalidity, but determines that a part of the award is valid, the court shall set aside the entire award. However, if the parties agree thereto, and if such valid and invalid parts are separable, the court shall set aside the invalid part, and order judgment to stand as to the valid part.

SEC. 105. At the expiration of 10 days from the decision of the superior court upon the petition filed as aforesaid, final judgment shall be entered in accordance with the decision, unless during the 10 days, proceedings for an appeal therefrom have been commenced. In such case only such portion of the record shall be transmitted to the appellate court as is necessary to the proper understanding and consideration of the questions of law presented by the petition and to be decided.

SEC. 106. If the petitioner's contentions are finally sustained, judgment shall be entered setting aside the award in whole or, if the parties so agree, in part; but in such case the parties may agree upon a judgment to be entered disposing of the subject matter of the dispute, which judgment when entered shall have the same force and effect as judgment entered upon an award.

On page 1 of the printed bill, strike out lines 1 to 24, inclusive; and on page 2, strike out lines 1 to 37, inclusive, and insert

"SECTION 1. Except as otherwise provided in this act, if a retailer, or other person authorized so to do, petitions in conformity with the requirements of Section 20 of the Retail Sales Tax Act of 1933, Section 12 of the Use Tax Act of 1935, or Section 6561 of the Revenue and Taxation Code for reassessment or redetermination of a tax computed on gross receipts from sales of, or the sales price of, tangible personal property purchased for use in the performance of contracts with the United States for construction of National defense facilities on a cost-plus-a-fixed-fee basis, pending a final decision in a court of last resort that the tax imposed under the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or the Revenue and Taxation Code, as the case may be, is applicable with respect to transactions of such kind, the State Board of Equalization shall not initiate action to cause the assessment or determination to become final.

SEC. 2. Except as provided in this act, the State Board of Equalization shall not make a final assessment or determination with respect to a tax which is the subject of a petition for reassessment or redetermination under the conditions described in Section 1 hereof, which is computed on gross receipts from, or the sales price of, a sale made under a contract entered into prior to a decision such as is mentioned in said section, if it is established that the person liable for the tax has been unable to collect the amount of such tax from the vendee by demand duly made.

SEC. 3. Unless a person otherwise liable for a tax such as is described in Sections 1 and 2 of this act shall maintain accurate records with respect to all transactions of the type therein described and shall report the transactions to the State Board of Equalization as required by the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or the Revenue and Taxation Code, as the case may be, said sections shall not apply to such person or to any tax assessed against him.

SEC. 4. Nothing contained in this act shall prevent the State Board of Equalization from making such final assessments or determinations of tax with respect to transactions of the type described in Sections 1 and 2 of this act as it may deem necessary to establish the validity of assessments or determinations arising out of transactions of such kind, nor shall this act affect jeopardy assessments under Section 19 of the Retail Sales Tax Act of 1933, or jeopardy determinations under Section 11 of the Use Tax Act of 1935, or Section 6536 of the Revenue and Taxation Code.

SEC. 5. A taxpayer shall not be liable for interest with respect to any tax assessed or determined under the Retail Sales Tax Act of 1933 and Use Tax Act of 1935 or Revenue and Taxation Code, arising out of transactions described in Sections 1 and 2 of the act, if such tax is paid within 90 days after the effective date of the final decision in a court of last resort that the tax imposed under said acts is applicable, as the case may be, with respect to transactions of such kind.

SEC. 6. Nothing contained in this act shall be construed as a legislative intent, interpretation, or concession to the effect that the tax imposed under the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or Revenue and Taxation Code, as the case may be, is inapplicable with respect to any transaction or situation mentioned herein, and the Legislature hereby declares and reaffirms that the sales tax is not imposed upon any purchaser of tangible personal property in this State, but is for the privilege of engaging in the business of selling such property at retail.

SEC. 7. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portion of this act irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional.

SEC. 8. This act, inasmuch as it provides for a tax levy for the usual current expenses of the State, shall, under the provisions of Section 1 of Article IV of the Constitution, take effect immediately: provided, however, that the provisions of the

Retail Sales Tax Act of 1933, as it existed on January 1, 1941, are hereby continued in force until May 1, 1941, and that the provisions hereof repealing certain sections of the Revenue and Taxation Code shall become operative at the same time as Part 1, Division 2, of the Revenue and Taxation Code, passed by the Legislature at its Fifty-fourth Session."

Amendment No. 4

On page 1 of the printed bill, strike out line 1, and insert "SECTION 1. Section 19597 of the Business and Professions Code is hereby amended to read as follows:

19597. The commission deducted by any licensee from pari-mutuel pools shall not exceed 8 per cent of the gross amount of money handled, and the odd cents [of all redistributions made on all mutuel contributions exceeding a sum equal to the next lowest multiple of 10.] by which the amount payable on each dollar wagered

exceeds a multiple of ten cents (\$0.10). The amount deducted by the licensee shall be in addition to the license fee required by this chapter.

SEC. 2. Section 14 of the act cited in the title hereof is hereby amended to read as follows:

SEC. 14. Any licensee conducting a horse race meeting shall provide a place or places in the race meeting grounds or inclosure at which such licensee may conduct, operate and supervise the pari mutual or mutual method of wagering upon the results of said races so conducted and within its inclosure; and said system of wagering shall be operated only by the installation and use of the totalisator or such mechanical equipment as may be approved by the board, but such board shall not require any particular make of mechanical equipment; provided, that such wagering shall not be held or construed to be unlawful, any other statute of the State of California to the contrary notwithstanding. No other method of betting, pool making or wagering shall be permitted or used by such licensee, and said mutual method of wagering shall be carried on and conducted in the manner aforesaid and not outside of the track or inclosure of a licensee.

The commission deducted by any licensee from pari mutual pools shall not exceed 8 per cent of the gross amount of money handled, and the odd cents (et al) redistributions to be made on all mutual contributions exceeding a sum equal to the next lowest multiple of 10, *by which the amount payable on each dollar won or exceeded a multiple of ten cents (\$0.10).* The said amount so deducted shall be in addition to the license fee of 4 per cent of the gross amount of said money handled, as provided in Section 12 herein.

SEC. 3. Section 1 of this act shall become operative at the same time that Chapter 4 of Division 8 of the Business and Professions Code takes effect; at which time Section 14 of Chapter 769 of the Statutes of 1933, as amended by this act, is hereby repealed.

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety, within the meaning of Section 1 of Article IV of the Constitution of the State of California and shall therefore go into effect immediately. A statement of the facts constituting such necessity is as follows:

Recent rulings indicate the adoption of a new construction of the law relating to the disposition of the odd cents resulting from pari mutual redistributions. Based on the previous construction of the law, racing has grown to be a great industry of this State, employing hundreds of people and furnishing entertainment to thousands. The license fees received by the State have become an important source of support to State educational institutions.

The new interpretation threatens not only the industry but the vital activities of our educational institutions. It may cause a reduction in purses, a decline in the quality of horses raced, a decrease in public interest in the sport and a diminution of license fees received by the State. In order to avoid the consequent damage to racing in California and permanent injury to the sources of support of State educational institutions it is necessary that this corrective act take effect immediately."

COMMUNICATIONS

The following communication was received and read, and on motion of Senator Phillips, ordered printed in the Journal:

Partial Report of the Joint Legislative Fact-Finding Committee on Employment—Accepting the Report of the Legislative Advisory Committee on Defense and Employment, "On Natural Resources of California and the Tributary Pacific Slope Region"

The Joint Legislative Fact Finding Committee on Employment (consisting of 17 members, nine from the Assembly and eight from the Senate) was created by Senate Concurrent Resolution No. 10, February 24, 1940, for the purpose of securing factual data relating to gainful employment.

The Fact Finding Committee was supplemented by the creation of an Advisory Committee of "15 nonlegislator members," to be appointed by it, under the authority of Assembly Concurrent Resolution No. 26, May 23, 1940, to secure data and information on "all phases of the industrial, manufacturing and transportation processes and facilities."

Later, an "Industrial Committee" was created through Senate Concurrent Resolution No. 23, September 21, 1940, to determine the availability of the results of a complete industrial survey and report on California and the tributary area.

Both the Legislative Advisory Committee and the Industrial Committee recommended to the Fact Finding Committee that copies of the industrial report being prepared by the Industrial West, Inc., a nonprofit fact finding and research organization, be purchased and made available for an industrial program in the interest of employment.

The Joint Legislative Fact Finding Committee, created under Senate Concurrent Resolution No. 10, February 24, 1940, at a special meeting in Sacramento, March 14, 1941, concurs in and approves the report of the Advisory Committee hereto attached.

Report on Natural Resources—California and the Tributary Pacific Slope Region (11 Western States)

A new approach to the relief and unemployment problems through new industrial development

The Subcommittee of the Joint Legislative Advisory Committee, appointed to investigate and report on the *Industrial Survey of Natural Resources on the Pacific Slope (11 Western States)*, made by Industrial West, Inc., has the following report to submit:

At a special session of the State Legislature, September 21 last, there was created by Joint Resolution No. 23, an "Industrial Committee," consisting of three members.

Messrs. Paul C. Smith, Editor and General Manager, the *Chronicle*, H. C. McGinn, Calaveras Cement Co., and Geo. W. Malone, Consulting Engineer Manager, The Industrial West, Inc. The Industrial Committee has expressed a desire to work with and through this Legislative Advisory Committee. In making this report, The Industrial Committee was fully consulted.

Objective

To so develop and utilize the natural resources—raw materials—of California and the Pacific Slope Tributary Region or to make this Nation independent of foreign countries as a source of their raw materials. This objective should have in mind *not alone* the providing of "strategic" materials for war purposes in times of emergency—but as a long range plan to carry on during the period following, when a natural depression, or let down in production is an aftermath of wartime expansion. It is a new approach, through sound industrial development, to the relief and unemployment problems.

Obtaining Objective

It is obvious that in order to obtain the desired objective a great amount of research is necessary. This would take time—from two to three years—and money. Also, as the *time element* is an important factor, the information making up a coordinated industrial survey must be had as early as is possible. Fortunately, this is available through the "factual inventory" which has been made during the past three years by The Industrial West, Inc., directed by Mr. Geo. W. Malone, a consulting engineer. This report is contained in what is termed "The Industrial Survey Encyclopedia of Western Resources" and includes the entire Pacific Slope Tributary Region (11 Western States). This survey took two and one-half years to complete at a cost of \$150,000.

It may be asked why should we be interested particularly in the entire Pacific Slope Region, other than just the State of California. The answer is fourfold:

1. Raw materials are found in, and will be drawn from the other States for some of the most important new industries. It is necessary to know their location and extent.
2. To stabilize labor, as migrants and relievers would otherwise be drawn to California from this tributary area.
3. The cooperation of the other States is necessary in bringing about the adjustments affecting the feasibility of industry.
4. Ninety-five per cent of the economic problems of the Pacific Slope Area (11 Western States) are common, and can be adjusted through such cooperation.

The Subcommittee has reviewed in a general way the industrial survey—"Encyclopedia of Resources" and finds it very complete. It is, of course, not entirely cross indexed, and much more work will have to be done to make it readily accessible and convenient, and to furnish sufficient copies for the use of the Legislature and committees. However, the material has all been collected, catalogued and coordinated into the necessary manuscript, maps, charts, et cetera, it only remains to complete the work. For the benefit of the committee there follows herewith a general outline of what this industrial survey and report contains.

Scope

The industrial survey is a *factual inventory* of the available raw materials in the 11 Western States, including the mineral, agricultural and forestry fields, together with their location, extent and availability.

A section of the industrial report is also devoted to each of the major "plant factors", in addition to the raw materials, affecting the feasibility of industry, including *transportation*: Railroads, highways, intercoastal shipping, inland waterways and airlines; *power*: Where generated, location of transmission systems and cost; *trade balance*: In the major groups and 157 commodities—amount shipped into and out of each State; *population trends*; *labor and taxes*. Sections are also devoted to some specific products having the earmarks of feasibility, such as the new method of electrolytic reduction of low-grade manganese, increased rayon production, et cetera.

The Industrial Survey and Report—Encyclopedia of Western Resources

This basic industrial report consists of 12 well-indexed sections, approximately 2000 pages, including 200 graphs, charts and maps. This work will be up-to-date and sufficient copies furnished for the "Advisory" and "Fact-finding" Committees, and for the Legislature.

Advisors and Consultants

The *Mining Bureaus, Schools of Mines, State Engineers, Railroad Commissions, Planning Boards and Directors of Agricultural Extension Service* of the 11 Western States acted as advisors and consultants in their respective fields in the preparation of the work, together with the United States Geological Survey, The Federal Bureau of Mines and the Federal Power Commission.

Object of Survey

The objective is a new approach to the *retard-employment* and *National defense* problems, through the creation of new permanent industries, based on the *rare materials of the region*. There will be furnished full time, top wage jobs, and many of the products in which this Nation's markets are now deficient, including many of the so-called "strategic" minerals, will be produced.

New opportunities for private investment will be made available. This will in turn create much additional taxable property needed by the Pacific Slope States to assist in carrying the load.

Raw Materials

- Minerals, including fuels—their specific location and extent.
- Agricultural products—location, extent and trends.
- Forestry products—location, extent and trends.

Plant Factors

New and Expanded Industries**

(**Some examples of possibilities)

Minerals. The seven leading strategic minerals of chrome, manganese, mercury (quicksilver), tungsten, antimony, nickel and tin, together with many minerals of lesser importance.

Electro-chemical and electro-metallurgical industries, including the steel alloys.

Agriculture. Vegetable oils, fibre flax, linseed oil, sugar (sugar beets), meats and other products.

Forestry. Rayon, newsprint and plastics, in addition to the regular lumber and other miscellaneous products.

It is stated by the Industrial Committee that the cost of completing and furnishing the required number of copies of the *basic industrial report* (12 indexed sections) and the brief specific recommendations for new industries, together with an outline of the necessary adjustments in the basic work, will amount to \$25,000. As stated previously already \$150,000 has been expended in making the *survey and report*.

If the required funds are made available early in January, a preliminary report can be submitted at the beginning of the last half of the session, and the *completed basic report* and brief report of specific recommendations as outlined, presented prior to the adjourning of the session. Approximately four months time will be required.

The brief report pointing out the specific industries and products that are, or can be made feasible of production in California and the tributary area, together with the necessary adjustments, will be prepared and submitted to the "Fact Finding Committee"—cross indexed with the *basic industrial report* of 12 sections for reference to supporting data and information.

General Assumptions

In general the future profitable increased production of the Pacific Slope must be based on the products in which this Nation's markets are deficient. In such production the Western States are entitled to an adjustment in the cost of production differentials, based on our *domestic* standards of living, as compared to foreign standards. But, naturally, this increment of adjustment must not unduly affect the cost to the consumer, other considerations, including relief and unemployment costs must more than offset such effect.

Some of the necessary adjustments include tariffs, subsidies, and quotas, which have been built up during the past 50 years by Congressional and executive action. Increased production in other lines may be brought about through publicity and emphasis by official bodies on the changing economic factors making such increase economically feasible.

The survey discloses that the Pacific Slope is peculiarly fitted, with its available raw materials, transportation systems, power, etc., to produce many products in which this Nation's markets are deficient, and points out the specific adjustments necessary to such production.

A specific example of the possibilities of a *new industry* is given in the case of chromite on attached sheet.

Recommendations

In view of the far reaching possibilities disclosed by this industrial survey, the subcommittee is of the opinion that it should be carried to completion. It then could be made readily available to the State Legislature. As far as can be determined there has never been as complete and composite an industrial survey of raw materials, with the attending "plant factors," made for the region. Every advantage should be taken of it. It forms the foundation for a specific industrial program as a new approach to the relief and unemployment problems.

We therefore recommend to the full committee:

1. That a sum, not exceeding twenty-five thousand dollars (\$25,000) be appropriated for the purchase of the *basic work*, and the brief specific report, as already outlined.

2. That the Legislatures and proper authorities of the other 10 States in the Pacific Slope Tributary Region be informed of any action taken.

NOTE: Arguments supporting recommendations will be given at the meeting of the full committee in San Francisco on January 4, 1941.

H. W. OSTERHAUS, for Subcommittee

Report Adopted by Full Advisory Committee

At a meeting of the entire legislative Advisory Committee held in San Francisco, in December, 1940, this subcommittee report was unanimously accepted and approved and recommended for adoption by the Legislative Fact-Finding Committee.

Specific Examples of a New Industry

Chromite

Chromite is one of the seven principal "strategic" minerals, and is used in the manufacture of stainless steel, steel alloys, refractories, and in the chemical field. This mineral is extensively used in airplane and battleship armor steel, on account of its strength, light weight, and rustless qualities.

Over a period of 25 years its use has increased from 65,000 tons in 1915, to an estimated 400,000 tons for 1940.

The United States is the largest consumer of this material in the world, and the smallest producer. We produce less than 1 per cent of our domestic consumption. The price per ton for that period has averaged approximately \$19 per ton, except for the war years of 1916 and 1917 to 1918, when imports were threatened. The price averaged \$44 per ton during the year 1918, and the domestic production jumped to 45 per cent of the Nation's consumption.

The latest price quoted in the Mining & Engineering Journal was \$34 to \$36 per ton f.o.b. Atlantic ports. If the "Buy American" clause (foreign price plus 25 per cent) could be invoked, and "stockpiled" on the Pacific Coast and the specifications properly written, there is little doubt that the United States could be made self-sufficient in this "strategic" mineral.

The industrial survey discloses that there are 265 deposits of this "strategic" mineral in five Western States—most of them in California.

When full production is reached, an estimated minimum of 5,000 men would be directly employed in the mining and milling operations in this one raw material producing operation alone. As raw material producing industries form the base of the pyramid of employment—for every man directly employed in such an industry on a full time, top-wage job, the record shows that at least 10 persons are directly or indirectly supported in the processing and service industries. In this one industry, production of chromite, only one of the "strategic" minerals in the mineral field, an estimated 50,000 persons would ultimately gain their support.

This is cited as an example of the possibilities of the new approach to the relief-unemployment-and-National defense problems through new industries. The Nation gets security through domestic production of a necessary mineral. The Pacific Slope gets a new industry, thereby creating employment, new private investments, and additional taxable property.

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 7, 1941

*To the Honorable Members of the Senate
Sacramento, California*

SUBJECT: ASSEMBLY BILL NO. 2582

GREETINGS: Your preferred consideration is requested, and prompt passage as well, of Mr. Green's Assembly Bill No. 2582 which grants to the United States certain gunnery target practice rights in California's territorial waters.

For your information:

(1) I attach a copy of Secretary of War Stimson's request for this legislation.

(2) The gunnery practice contemplated has been engaged in for many years but on a very limited scale. It is now necessary to greatly expand.

(3) Numerous representatives of commercial shipping interests have already been consulted. It is learned that, in many cases, ships habitually keep close in to shore and that such habits will have to be altered to compensate for the new emergency conditions. It appears that the shipping interests readily concede the necessities of the situation and are fully prepared to cooperate.

(4) To the limit permitted by time and personnel, conversations have been had with representatives of commercial fishing interests and unions. They, in some few instances, may be seriously inconvenienced; perhaps caused actual loss. But it appears that they too foresee no serious obstacles of operation which can not be accommodated by conferences of army officials to insure receipt of warnings and cooperation with safety patrols in danger areas during target practice periods.

I, therefore, recommend prompt passage because of the National emergency.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

(COPY)

WAR DEPARTMENT, WASHINGTON, March 14, 1941

*Honorable Culbert L. Olson
Governor of California
Sacramento, California*

DEAR GOVERNOR OLSON: In order to provide for the proper training of men in the Military Service it is necessary from time to time to establish firing ranges of various types on land owned by or under the control of the United States. It has recently been proposed that a range for use in connection with anti-aircraft firing be established at Fort Ord, California, and it appears that the plans therefor will involve the use of the adjacent waters of Monterey Bay since shots will fall in the sea at distances up to 14,000 yards from the shore.

When this matter was considered it was determined that the use of the sea area adjacent to Fort Ord should not be approved unless and until the consent of the Legislature of the State of California was granted as to that portion of the waters within the territorial limits of the State. Upon further consideration it seems probable that future needs will require establishment of similar ranges on other lands on the Coast of California owned by or under the control of the United States. For this reason it is desirable that the Legislature of the State of California give its general consent to the use of such water areas for the purpose in question. It is contemplated that if such consent is given every precaution will be taken by the United States in its use of these areas.

It will be appreciated if you will present this matter to the Legislature at the earliest practicable date as the matter is one of urgency in connection with the National defense. For your convenience there is inclosed a draft of bill designed to accomplish the desired grant of consent.

Sincerely yours,

HENRY L. STIMSON, Secretary of War

A BILL.

An act to grant the consent of the State of California to the United States to use certain territorial waters of the State in connection with target practice operations on United States land adjacent thereto.

The people of the State of California do enact as follows:

SECTION 1. That the consent of the State of California be, and the same is hereby granted to the United States to use the territorial waters of the State of California, adjacent to any land on the coast thereof now or hereafter owned by or under the control of the United States, and occupied for Military purposes, in connection with conducting on such lands target practice operations of any type; provided, that before any of the herein described waters shall be used in connection with conducting target practice operations of any type the United States shall take all appropriate measures and shall make and publish necessary regulations for the protection of the person and property of all persons using such waters, and that the use herein consented to shall not be so exercised as to interfere unreasonably with the public use of said waters.

SEC. 2. The provisions of this act shall not be construed to impose any liability whatsoever upon the State of California in connection with the use of the waters as herein set forth.

POSTPONEMENT OF RECONSIDERATION

On motion of Senator Shelley, the further consideration of the motion to reconsider the vote whereby Senate Bill No. 1088 was passed, was continued until the next legislative day.

In furtherance of the National defense, the Government of the United States has entered into numerous cost-plus-a-fixed-fee contracts for the construction and improvement of needed defense facilities in this State. The Attorney General of this State has ruled that tangible personal property acquired by these contractors for their use in the construction and improvement of such facilities is sold to the contractors and not to the Government; that such transactions are not to be regarded as purchases for resale to the United States, and that, accordingly, the sales tax is applicable to gross receipts from sales of such property to the contractors.

The Government of the United States has refused to pay to the contractors as a part of the cost price of the materials used in the performance of these contracts the amount of any sales tax reimbursement charged to the contractors by the sellers of such materials. If the contractors are forced to absorb the amount of such reimbursement, their ability to proceed further in the National Defense Program may be impaired and if the sellers of the materials are not reimbursed for the tax, their ability to furnish the materials may be curtailed, resulting in a situation which will be detrimental to the public peace and safety in this State. The emergency thus created requires this enactment to relieve the contractors and the material men from serious hardship and from incurring interest obligations with respect to the taxes involved, pending a judicial determination which will assure their reimbursement."

Amendments read and adopted.

Bill ordered printed, and re-referred to Committee on Revenue and Taxation.

MY DEAR SENATOR: In response to your letter I personally do not desire to cause summer tracks to change present system of Attorney General unless board

has some way to properly act otherwise. I feel it would be most unfair and believe all tracks should start new rule together. Suggest you contact Ward Sullivan of Attorney General's Office and see if he agrees we can defer action legally until August. If so, agreeable to me in interests of fair play. If not, then emergency action by you only fair thing to do. As to breakage, I have wired and written you my views. I believe smaller tracks with pari-mutuel daily average under \$400,000 should break to dime on dollar and those over that daily average should break to nickel on dollar, with proper appropriations out of breakage for uses I have previously indicated. I had hoped to be back this week but unfortunately it will be last of next week. Thanks for your letter, regards.

Cordially,

JERRY GIESLER

On page 1 of the printed bill, strike out all of lines 1 to 14, both inclusive, and insert

"SECTION 1. Except as otherwise provided in this act, if a retailer, or other person authorized so to do, petitions in conformity with the requirements of Section 20 of the Retail Sales Tax Act of 1933, Section 12 of the Use Tax Act of 1935, or Section 6561 of the Revenue and Taxation Code for reassessment or redetermination of a tax computed on gross receipts from sales of, or the sales price of, tangible personal property purchased by contractors for use in the performance of contracts with the United States for construction of National defense facilities on a cost-plus-a-fixed-fee basis, pending a final decision in a court of last resort that the tax imposed under the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or the Revenue and Taxation Code, as the case may be, is applicable with respect to transactions of such kind, the State Board of Equalization shall not initiate action to cause the assessment or determination to become final.

SEC. 2. Except as otherwise provided in this act, the State Board of Equalization shall not make a final assessment or determination with respect to a tax which is the subject of a petition for reassessment or redetermination under the conditions described in Section 1 hereof, and which is computed on gross receipts from, or the sales price of, a sale made prior to a decision such as is mentioned in said section

or, if made subsequent to such a decision, at a price fixed by a contract which became binding prior to May 1, 1941, if it is established to the satisfaction of the board that the person liable for the tax has refrained from seeking reimbursement therefor only because of the insistence of those representing the United States with respect to such transactions and, after a reasonable effort to collect, can not be reimbursed therefor as a part of the sales or purchase price.

SEC. 3. Unless a person otherwise liable for a tax such as is described in Sections 1 and 2 of this act shall maintain accurate records with respect to all transactions of the type therein described and shall report the transactions to the State Board of Equalization as required by the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or the Revenue and Taxation Code, as the case may be, said sections shall not apply to such person or to any tax assessed against him.

SEC. 4. Nothing contained in this act shall prevent the State Board of Equalization from making such final assessments or determinations of tax with respect to transactions of the type described in Sections 1 and 2 of this act as it may deem necessary to establish the validity of assessments or determinations arising out of transactions of such kind, nor shall this act affect jeopards assessments under Section 19 of the Retail Sales Tax Act of 1933, or jeopardy determinations under Section 11 of the Use Tax Act of 1935, or Section 6536 of the Revenue and Taxation Code. If any person against whom a final assessment or determination of tax shall be made pursuant to this section shall claim that he is denied equal protection of the laws by reason of the provisions of Sections 1 and 2 of this act and if it shall be judicially concluded that such claim is well founded, then and in that event, said Sections 1 and 2 shall be void and of no effect.

SEC. 5. A taxpayer shall not be liable for interest with respect to any tax assessed or determined under the Retail Sales Tax Act of 1933 and Use Tax Act of 1935 or Revenue and Taxation Code, arising out of transactions described in Sections 1 and 2 of this act, if such tax is paid within 90 days after the effective date of the final decision in a court of last resort that the tax imposed under said acts is applicable, as the case may be, with respect to transactions of such kind.

SEC. 6. Nothing contained in this act shall be construed as a legislative intent, interpretation, or concession to the effect that the tax imposed under the Retail Sales Tax Act of 1933, the Use Tax Act of 1935, or Revenue and Taxation Code, as the case may be, is inapplicable with respect to any transaction or situation mentioned herein, and the Legislature hereby declares and reaffirms that the sales tax is not imposed upon any purchaser of tangible personal property in this State, but is for the privilege of engaging in the business of selling such property at retail.

SEC. 7. If any section, subsection, clause, sentence or phrase of this act which is reasonably separable from the remaining portions of this act is for any reason held to be unconstitutional, such decision shall not affect the remaining portions of this act. The Legislature hereby declares that it would have passed the remaining portion of this act irrespective of the fact that any such section, subsection, clause, sentence or phrase of this act be declared unconstitutional.

SEC. 8. This act is hereby declared to be an urgency measure, necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution, and as such shall take effect immediately. The facts constituting such necessity are as follows:

In furtherance of the National defense, the Government of the United States has entered into numerous cost-plus-a-fixed-fee contracts for the construction and improvement of needed defense facilities in this State. The Attorney General of this State has ruled that tangible personal property acquired by these contractors for their use in the construction and improvement of such facilities is sold to the contractors and not to the Government; that such transactions are not to be regarded as purchases for resale to the United States, and that, accordingly, the sales tax is applicable to gross receipts from sales of such property to the contractors.

The Government of the United States has refused to pay to the contractors as a part of the cost price of the materials used in the performance of these contracts the amount of any sales tax reimbursement charged to the contractors by the sellers of such materials. If the contractors are forced to absorb the amount of such reimbursement, their ability to proceed further in the National Defense Program may be impaired and if the sellers of the materials are not reimbursed for the tax, their ability to furnish the materials may be curtailed, resulting in a situation which will be detrimental to the public peace and safety in this State. The emergency thus created requires this enactment to relieve the contractors and the materialmen from serious hardship and from incurring interest obligations with respect to the taxes involved, pending a judicial determination which will assure their reimbursement."

Amendments read and adopted.

Bill ordered printed, and re-referred to Committee on Revenue and Taxation.

SACRAMENTO, CALIFORNIA, April 23, 1941

The Senate, State of California

GENTLEMEN: At 9 p.m. April 22, 1941, I was handed copies of Senate Bills Nos. 338, 339 and 907 with communications from the Governor objecting to these measures. These bills, together with the Governor's messages are submitted herewith.

Respectfully,

J. A. BEEK, Secretary of the Senate

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 22, 1941

*To the Honorable Members of the Senate
State Capitol, Sacramento, California*

GREETINGS: I am returning herewith, without my signature, Senate Bill No. 338, entitled "An act to amend Section 4 of The Corporation Income Tax Act of 1937, relating to corporations exempt from tax." This bill exempts so-called "diversified management companies" from all taxes under The Corporation Income Tax Act, just as its companion bill, Senate Bill No. 339, exempts such companies from all tax under the Bank and Corporation Franchise Tax Act.

My objections to this bill are as follows:

It has the effect of singling out a group of privately owned corporations operating for profit, and granting them exemptions heretofore accorded only to eleemosynary and like corporations, and which have never been accorded even to mutual nonprofit cooperative corporations.

The scope of the permissible profit-making activities of diversified management companies can be readily obtained from the statement of policies required to be filed as a condition of registering under Section 8 of the Federal Investment Company Act of 1940. Under that act, each registering company must file a recital of policy concerning (among other things) (1) "engaging in the business of underwriting securities issued by other persons"; (2) "the purchase and sale of real estate and other commodities, or either of them"; (3) "making loans to other persons"; and (4) "portfolio turn over (including a statement showing the aggregate dollar amount of purchases and sales of portfolio securities, other than Government securities, in each of the last three full fiscal years * * *)."

It is clear to me that sound tax and fiscal policy demands that companies which can, and do, underwrite securities, and which can, and do, engage in the activity of buying and selling securities and property for speculative profit in competition with other underwriters and speculators, should not be accorded exemption from a State tax which all other profit corporations must pay.

Further, I note from the Federal Investment Company Act of 1940, that diversified management companies are required to have a degree of diversification in their portfolio of investments, but that there is no requirement of diversification in the stock ownership of such companies. That is, there is no assurance that the stock ownership of such companies will be spread over many small stockholders (one of the arguments in favor of the present bill) and there is the possibility that the effective ownership of such companies may be concentrated in the hands of a few persons or corporations. Therefore, a blanket tax exemption of diversified management companies would defeat the announced purpose of its proponents, which was to exempt only such companies, the shares of which are widely held by many small investors.

I am aware of the argument made by the proponents of this bill, that tax exemption is necessary to prevent a so-called triple tax on the small investor; that is, where income is taxed once to the corporation earning it, again to the diversified management company which receives a dividend from the first company, and again to the small investor, who owns stock in the diversified management company, on the receipt of the dividend from the diversified management company. On close analysis this argument falls for the following reasons:

(a) There is no certainty that the stockholder of the diversified management company will be a "small" investor;

(b) Section 8 (h) of the California Bank and Corporation Franchise Tax Act, and Section 7 (h) of the California Corporation Income Tax Act, already permit a corporation which receives a dividend to deduct from income a percentage of the dividend income taxed to the declarer corporation under either act. This fact eliminates one incidence of the so-called "triple tax" as far as taxation by this State is concerned;

(c) The income of diversified management companies is not limited to dividend income, but can, and does, arise from the speculative purchase and sale of securities and property, interest, etc.

In conclusion, I am also impressed by the fact that the United States Congress (despite the fact that it enacted the Federal Investment Company Act of 1940, regulating investment companies) has not deemed it proper to exempt from Federal taxation the complement of investment companies which would be exempt from State taxation by this bill and its companion, Senate Bill No. 339.

Respectfully submitted,

CULBERT L. OLSON, Governor of California

Senate Bill No. 338 ordered to unfinished business file

This fact eliminates one incidence of the so-called "triple tax" as far as taxation by this State is concerned;
- (c) The income of diversified management companies is not limited to dividend income, but can, and does, arise from the speculative purchase and sale of securities and property, interest, etc.

In conclusion, I am also impressed by the fact that the United States Congress (despite the fact that it enacted the Federal Investment Company Act of 1940, regulating investment companies) has not deemed it proper to exempt from Federal taxation the complement of investment companies which would be exempt from State taxation by this bill and its companion, Senate Bill No. 338.

Respectfully submitted,

CULBERT L. OLSON, Governor of California

Senate Bill No. 339 ordered to unfinished business file.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 22, 1941

*To the Honorable Members of the Senate
Sacramento, California*

GREETINGS: I am returning herewith without my signature Senate Bill No. 907, entitled "An act relating to the payment of interest on and principal of bonds, and the holding of funds for such payment." My objections to this bill are as follows:

This bill attempts to provide a method whereby a corporation or public body which has issued bonds and paid the principal and interest due thereon to a trustee, can recover unclaimed funds in the hands of the trustee.

The bill is ambiguous in that it does not clearly specify at what time the duty evolves upon the trustee to return such funds. Section 5 of the bill reads as follows:

"Whenever the time for the payment of the interest and principal of all bonds issued and outstanding has passed and the obligation to make such payment is barred by the statute of limitations, all moneys held by the trustee for the payment of the principal of and interest on such bonds shall be returned to the person issuing the bonds."

It is not clear what "obligation to make such payment" is referred to, there being two obligations involved. The first obligation is of the corporation or public body to pay the trustee, and the second obligation is that of the trustee to pay the bondholder. The statute of limitations affecting a suit against the corporation or public body by the trustee would commence to run from the due date of the bond. The statute of limitations affecting a suit against the trustee by a bondholder for the payment of moneys in the hands of the trustee would not commence to run until the trustee had refused on demand to pay such moneys.

It would be possible to so construe this bill to permit a corporation or public body to delay making payments to a trustee until a few months or days before the statute would run against the corporation. The trustee immediately upon the expiration of that period would be forced to return the moneys even though no reasonable time within which the bondholders might claim the moneys would have been available.

A number of similar inequities could probably be cited. For example, assume a minor or incompetent held a bond. Should the trustee be forced to return the moneys set aside to pay off this bond, during the period of minority or incompetency? It has always been the policy of the law to suspend statutes of limitations during such periods.

It would seem to me that unclaimed moneys in the hands of a trustee for the payment of principal or interest on outstanding bonds would be in the same category as unclaimed bank deposits, and a procedure for the escheat of such moneys similar to that applicable to unclaimed bank deposits should be set up.

Respectfully submitted.

Resolution read, and unanimously adopted.

EXPLANATION OF VOTE ON ASSEMBLY JOINT RESOLUTION NO. 10

I voted for this resolution in the Senate Elections Committee, and on the floor of the Senate, after a majority of the Assembly Committee, and the Assembly, had approved it.

The resolution contains no language advocating abrogation of the State unit, directly or otherwise. It was my understanding in committee, and still is, that it merely urges the abandonment of the cumbersome, expensive and useless device of the Electoral College. I have long believed that this useless procedure serves no useful purpose and should be abandoned.

The department shall supply every county with all the information and data it has available in the file concerning every person applying for or receiving relief under this chapter about whom the county requests information and data.

2638. The department shall secure from the California Employment Commission and supply the counties with information concerning unemployment insurance benefits under the Unemployment Insurance Act which may be available for or are being paid to persons applying for or receiving relief under this chapter.

2639. The department and every county is authorized to make grants to, and to receive and expend funds made available to both or either from, the Federal Government or any agency or department or board thereof for relief, work relief, rehabilitation or cooperation with the Federal Government for the relief of persons in need, and in this connection the department and every county shall cooperate with the Federal Government.

Every county grant under this section constitutes a direct relief expenditure for which the State shall be responsible to the same extent as it is responsible for the direct relief costs in that county under subdivision (b) of Section 2652.

2640. Except as otherwise provided in this section, until budgets and standards are prepared by the department under Section 2559 and approved by the board of supervisors for the county, the board of supervisors may determine its own policies with reference to the resources and amount of relief a person may be permitted to have.

When budgets and standards under Section 2559 are prepared by the department for the county, they shall be submitted to the board of supervisors and, within 30 days after the date of submission, the board of supervisors shall approve or reject in whole or in part such budgets and standards. Those budgets and standards approved by the board of supervisors shall take effect upon the date of approval. All budgets and standards not approved within 30 days shall be deemed rejected.

If any budgets and standards are rejected by the board of supervisors, and the department and the board of supervisors can not agree upon modifications, a relief standards board of three members for the particular county shall be established as follows: The department shall select a member of the Social Welfare Board, an officer or employee of the department to represent the department upon the relief standards board. The board of supervisors shall select a member of the board of supervisors, an officer or employee of the county to represent the county upon the relief standards board. The representative of the department and the representative of the county shall select an impartial third person, other than a public officer or employee, to act as chairman of the relief standards board. Neither the representative of the department nor the county shall receive any compensation for his services as a member of the relief standards board but he shall be entitled to his expenses if otherwise entitled thereto by law. The chairman of the relief standards board shall be paid twenty-five dollars (\$25) per day with a minimum of one hundred dollars (\$100), from the day the relief standards board convenes until the disputed budget and standards are taken under submission. While the budgets and standards are under submission, the chairman shall receive no compensation. He shall receive his actual and necessary expenses in an amount not to exceed eight dollars (\$8) per day. All expenses of the relief standards board shall be borne 50 per cent by the State from the money available for expenditure under this chapter and 50 per cent by the county from county funds. Expenses incurred by a county for a relief standards board shall not be a county relief expenditure for which reimbursement may be had from the State.

The disputed budgets and standards shall be submitted to the relief standards board for hearing and decision. The relief standards board may approve, reject or modify the disputed budgets and standards. It may make its decisions by a majority vote and its decision shall take effect immediately, shall be final and shall be binding upon the department and the county.

If the budgets and standards rejected by the board of supervisors are not agreed upon by negotiation or settled by the relief standards board within 60 days after submission to the board of supervisors, the department may put them into effect in the form submitted or modified by the department at any time after the expiration of 60 days from the date upon which the budgets and standards were submitted to the board of supervisors, and, if put into effect, shall be binding upon the county. If the department does put into effect any budgets and standards without the approval of the board of supervisors and it subsequently appears when the budgets and standards are finally determined, either by negotiation or by decision of the relief standards board, that higher direct relief costs have been imposed upon the county than would have been imposed had such budgets and standards as finally determined been in effect from the date upon which the budgets and standards determined by the department were imposed, the State shall reimburse the county for the full amount of the difference borne by county funds.

2641. The provisions of Sections 114, 115 and 116 of this code do not apply to relief activities or to appropriations for expenditure under this chapter. The department and the counties may enforce the rights and obligations and powers and duties granted or imposed upon one or the other under this chapter and this code by appropriate actions at law or suits in equity."

"2651. Until a county residence is acquired in the case of needy persons having no county residence but who are State residents, and until the period provided therefor has elapsed in the case of needy persons eligible for relief at State expense under Section 2501, State money may be expended for home relief, medicines, medical, surgical, hospital and other treatment, nursing care and corrective appliances.

In the case of needy persons having a county residence, State money may be expended for home relief, when matched by the required share of county money. Necessary medicines, medical, surgical, hospital and other treatment, nursing care and corrective appliances for needy persons having a county residence shall be an obligation and duty of the county to be performed at county expense and the county shall be the sole determinant of the standards thereof. The county may furnish medicines, medical, surgical, hospital and other treatment, nursing care and corrective appliances for nonresidents whom it is authorized to assist under this chapter.

NOES—Senators Carter, Dillinger, Foley, Garrison, Jespersen, Kenny, McBride, Shelley, and Swan—9.

Minority Report

The following minority report was submitted by Senator Shelley, and ordered printed in the Journal:

The undersigned of the Committee on Conference concerning Senate Bill No. 133 dissent from the report made by the majority of the committee, and as reasons for their difference with other members of the committee set forth the following points:

The first thing to be borne in mind in connection with Senate Bill No. 133 is the difference of opinion as to whether relief can be better administered by and through State Relief Administration or by and through county administration. The supporters of the position of State administration of relief, amongst whom are the signers of this minority report, have always contended and repeat here that Relief Administration requires a single centralized State unit, because of the interchangeability of our population, especially transient workers, amongst whom the need for relief so greatly exists in certain periods of the year.

We feel that a return to county administration as is proposed under Senate Bill No. 133 will set up 58 different methods of handling relief and open the door to a more widespread suffering and hardship. We can not agree with the majority of the committee's recommendation of Senate Bill No. 133, because we feel the bill does not set up any definite minimum relief standard to which 58 different counties must adhere.

We call your attention to Section 2559, Article 2.5, on page 5 of the printed bill which says that "The department may fix for each county maximum relief case budgets and minimum standards of relief within the range of which the board of supervisors may establish its own policy."

We feel that this and other provisions of the bill will open the door to possible use of 58 different types of political expediency in the handling of relief problem, and will, no doubt, result in the large metropolitan areas having to absorb a relief load which have, by one means or another been pushed into these counties.

We call your attention to Section 2651 which we feel would set up 58 different standards of medical aid for needy persons.

We call your attention to the provisions set forth in Section 2640, page 10 of the printed bill, for setting up an Arbitration Board for the purpose of deciding any existing disputes between the State department and a county, and point out that in the event of the board's being unable to agree on a neutral chairman, there is not provision for deciding this deadlock; the result thereby being that the county can continue to maintain its position and the State is denied the right to shut off any aid to bring about a determination of the issue.

Until 24 hours ago the county supervisors of California had refused to take any stand on this matter. Despite the action of the Executive Committee of the County Supervisors' Association yesterday indorsing the provisions of Senate Bill No. 133, we believe that every metropolitan county and many of the smaller counties are still opposed to take over this burden.

We believe that even the Supervisors' Executive Committee would have refused to take action, had there not been pressure and coercion from certain elements in the Legislature, who are offering as bait a State subsidy for aged aid, which will relieve the counties of approximately \$15,000,000 of their present financial burden per biennium, in that category of assistance.

This huge sum of State money is, in our opinion, little less than a legalized form of bribery, and offered without any consideration whatsoever of the State's ability to contribute, or the counties' need for assistance.

We could point out at length technical objections to this bill. We are content to rest our case, however, on our fundamental belief that decentralization of the administration of the unemployment relief is unwise.

A. F. HAWKINS, Assemblyman
JOHN F. SHELLEY, Senator

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 23, 1941

*To the Honorable Members of the Senate
State of California, State Capitol
Sacramento, California*

GREETINGS: On April 21st I approved Senate Bill No. 264 entitled "An act to amend Sections 3101, 3105, and 3110 of the Revenue and Taxation Code, relating to

property taxation and to the registration of vessels to enforce the payment of property taxes, to take effect immediately." The sections of the Revenue and Taxation Code affected by this bill are contained in Article 1 of Chapter 6 of Part 5 of Division 1 of the Revenue and Taxation Code, which article requires the registration of boats to facilitate the collection of taxes thereon.

The effect of this bill is to broaden the requirements of said article so that hereafter all types of boats which are subject to local taxation in this State, including the smallest rowboats and canoes will have to be so registered.

Your attention is called to Section 3112 of the Revenue and Taxation Code, which reads as follows:

"3112. Every person who operates a boat which is not registered is guilty of a misdemeanor."

Under this language, a person who rents a rowboat and uses it, would be guilty of a misdemeanor, if the owner thereof had not registered the boat, and I am sure that such is not a desirable provision. But for the fact that the same criticism could have been made of the existing law, in so far as the boats which were affected by the existing law were concerned, I would have felt it my duty to veto the measure on this ground. However, as this undesirable provision was already in the existing law, I did not deem it as justifying the veto that this bill would extend this provision to boats formerly not covered.

I suggest that you give further consideration to this problem and would recommend that Section 3112 at least be amended so that its application would be limited to the defaulting taxpayer. It might even be well to repeal the section, as it is not customary to impose a criminal penalty solely upon a failure to pay taxes, and the only purpose of the registration of boats is to enforce such payment.

Your attention is also called to Section 3108 of the Revenue and Taxation Code requiring every boat to carry its certificate. It might be well to consider the practicability of such a provision when applied to rowboats, canoes, and the like.

Respectfully submitted,

CULBERT L. OLSON, Governor of California

Referred to Committee on Revenue and Taxation.

COMMITTEE REPORT**Council of State Governments**

MR. PRESIDENT: Your Committee or Delegates chosen to represent the State Senate, at the Council of State Governments in Washington, D. C., January 21 to 23, 1941, pursuant to Senate Resolution No. 23, begs to report as follows:

Tuesday, January 21st—10 a.m.

The Fifth General Assembly of the Council of State Governments convened at 10 a.m., January 21st, at the Mayflower Hotel, in Washington, D. C., with Honorable Edgar A. Brown, State Senator of South Carolina, Chairman of the Board of Managers of the Council of State Governments presiding.

In addition to your two Delegates, Mr. C. J. Carey, Chief of the Bureau of Market Enforcements, State Department of Agriculture, registered as a representative of California. Honorable Harold E. Stassen, Governor of Minnesota and President of the Council of State Governments, gave the address of welcome to the Delegates assembled from 44 of the 48 States. An interesting portion of Governor Stassen's speech is quoted herewith, in the belief that it may be of some value in outlining the theme of the meeting and its purpose:

"We meet in this Fifth General Assembly of the Council of State Governments at our National Capitol in an hour of crisis. Government of free men and free women is being subjected to its greatest challenge since first the blueprint was drawn at Philadelphia, a century and a half ago.

The dictator-fanned flames of total war are threatening to turn all of the Liberty-lighted houses of Democracy into tragic black ruins.

It is well, therefore, that at the very opening of this Assembly, we reaffirm our abiding faith in our democratic way of life and our united determination that those who challenge it shall fail.

Our responsibility as representatives of the Governments of the several States seems clear.

First, and foremost as States of the Union, we must give united support regardless of geographical location or partisanship to the established foreign policy of the Federal Government.

Second, we must make every possible cooperative contribution to the effective and rapid building and production of the means of National defense.

Third, we must maintain strong and efficient State Governments as one of the safeguards of the future liberty of our people in face of the inevitable great concentration of Federal Executive power necessitated by the emergency.

The relationship between the Governments of the State and the Federal Government has been the subject of constant debate, of frequent adjustment, of numerous court decisions, almost from the day of the establishment of this unique structure of government. In fact the Articles of Confederation failed because of their weakness in providing for effective relationships between the Governments. From this failure arose the framework for the successful operation of the government embodied in the Constitution of these United States. The basic difference in concept between the Articles of Confederation and the Constitution is emphasized in the very opening of the Preamble of the Constitution, "We the people of the United States." It is this emphasis upon the people and their rights rather than upon the prerogatives of any particular machinery of government that has been the main key to success. This should continue to be the basis on which we approach our joint problems.

Through all of the years of consideration, there has never been any question but that it is the province of the Federal Government to conduct our foreign relations and to determine our foreign policy. This has been obviously sound from the viewpoint of the people since unity in foreign affairs is vital to their successful conduct.

This basic principle should be clearly recognized by all of the State Governments in the present critical hour. It should be the constant effort of the Governments of the several States to support the duly established foreign

policies of the Federal Government. Within our States we can do much to build that unity which will present to the world an unbroken front backed by a depth of solid determination.

In times such as these any policy of this Nation will carry with it risks and dangers and uncertainties. But none of these threats would be as great as would be the danger if we became divided and torn by controversy between the peoples of the several States."

The second notable address given this opening day, was by Honorable Herbert H. Lehman, Governor of the State of New York. In speaking on National defense, which seemed to overshadow all other topics at this Council of State Governments, Governor Lehman appropriately stated:

"Although defense is primarily the responsibility of the Federal Government, many governmental programs may be initiated at State and local levels to supplement Federal activities."

And Governor Lehman gave the Delegates a comprehensive outline of the State Council of National Defense in the State of New York. One significant statement of Governor Lehman's may be pertinent to California, inasmuch as the Legislature is now considering the establishment of the State Council of Defense, and we quote:

"New York Council does not execute, but acts in an advisory and consulting capacity. All action by the State in defense has been taken through our existing governmental agencies. A number of local councils of defense have also been organized in New York. These local councils of defense associate and cooperate with the State Council and maintain a necessary liaison between activities on a State and local level."

Tuesday, January 21st, 2 p.m.

GENERAL SESSION ON RELIEF AND TAXATION: Honorable Leverett Saltonstall, Governor of Massachusetts, presiding. This session dealt with the question of relief more generally than taxation, which of course both are interrelated. For the purpose of brevity we submit the report of the Special Committee of the Council, as follows:

"Your Committee on Relief has examined the situation with respect to general relief and public assistance through five regional conferences in which State Legislators and public officials concerned have participated.

Out of the discussions in these conferences and related information your committee has formulated certain proposals for the consideration of this Assembly.

These proposals cover only so much of the present system of administering public relief and assistance as in our opinion urgently requires simplification or revision at the present time. The proposals are:

1. Direct relief should be added as a category to the Federal Security Program to be administered by the States as a part of their General Shared Relief Program.

2. All work relief should be operated by the States as a part of the general shared relief programs. This means a transfer of administrative responsibility for work relief from the Federal Government to the States.

3. The relief of migratory workers or persons should be handled by the States as a part of their general relief programs, and should be reimbursable by the Federal Government. To facilitate this proposal the question of uniform State settlement laws should be dealt with at the earliest moment.

4. The same rate of Federal reimbursement should be applied to each shared program of public assistance within any State.

5. The rate of Federal reimbursement should vary among the States from a minimum of 50 per cent to a maximum of 75 per cent. The schedule upon which Federal reimbursement vary should be predetermined and publicly announced by the Federal agency concerned. In making up the schedule that agency should give consideration to such factors as the volume of unemployment, cost of living and per capita income in the several States.

6. All administrative costs of State and local welfare agencies operating the shared programs should be reimbursed by the Federal Government at the same rate as applies to other reimbursements.

7. The distribution of surplus commodities in any State should be in accordance with plans developed and mutually agreed upon by the Federal Government and the State agency charged with public assistance in that State.

8. Occupational training of potentially employable persons should be intensified.

9. Rehabilitation through medical care and treatment of physical defects should be intensified and should be a part of the reimbursable program of general relief.

10. There should be a continuing Joint Congressional Committee working with State legislative and administrative groups in planning for new or modi-

fied legislation, and for the purpose of providing for research in public assistance.

11. This Assembly should provide a legislative counterpart to the Joint Congressional Committee by a continuing Committee on Relief of the Council of State Governments.

12. It is urged that all public officials recognize the crushing force of the soaring burden of all public relief on the taxpayer, and we recommend vigorous effort on their part for a more efficient and economical administration.

Your committee believes that these proposals if adopted would lead to:

- (a) Better service to the needy person
- (b) More efficient administration
- (c) Substantial savings to both the States and the Federal Government."

It may be noted that in the first preliminary report of the above committee it was recommended that relief be added to the categorical aids under "*Federal supervision*." Your Delegates, being mindful of the experience California has had with "*Federal supervision*" over shared social problems, protested that portion of the report, along with the Delegates of other States. In the final draft of this report the recommendation regarding Federal supervision of relief was omitted.

Tuesday, January 21st, 7.30 p.m.

An informal dinner was held at this meeting, with Honorable Burnett R. Maybank, Governor of South Carolina, presiding. An address by Honorable Robert H. Jackson, Attorney General of the United States, was read in the absence of the Attorney General, by the Honorable Francis Biddle, Solicitor General of the United States. The second address was given by Honorable Herbert R. O'Connor, Governor of Maryland. The topic of these two addresses was "Law Enforcement Problems of National Defense."

Wednesday, January 22d—10 a.m.

GENERAL SESSION ON DEFENSE: Honorable Frank M. Dixon, Governor of Alabama, presiding. The highlight of the Council was the address at this time on the subject of "Production for Defense" by the Honorable William S. Knudsen, Director of the Office of Production Management, Advisory Commission of the Council of National Defense. Mr. Knudsen outlined the background in setting up the Commission Council of Defense in the Office of Production Management. He gave an interesting and enlightening statement of facts, pointing out where the States, through their Legislature and executive departments, might render aid to the National Government on the matter of defense.

Mr. Knudsen pointed out that the States could render valuable aid through the State and local governments, in surveying and ascertaining plants and materials which might be able to produce National defense needs, and he pointed out that no plant, no matter how small, should be overlooked by the States in such a survey. Mr. Knudsen closed his address with the following, which we believe is worth repeating:

"I do not know of anything that could ever be accomplished on a large scale without the cooperation of everybody. If we have faith in one another, if we have confidence in one another, and if we are willing to spend a little sweat for a year or so, then we might save a little blood later on."

The second address on the topic of "Labor Supply and Training in Defense," by Honorable Sidney Hillman, Co Director with Mr. Knudsen, was read by Mr. Isadore Lubin, an assistant to Mr. Hillman. Mr. Hillman's address brought out that the several States' Employment Service should cooperate, and, if necessary, operate 24 hours a day, in supplying personnel to defense industries.

The third address, on the topic of "Health, Welfare and Total Defense," by Honorable Paul V. McNutt, Administrator, Federal Security Agency. Mr. McNutt briefly pointed out that in the great Program of National Defense, the health of the people must not be overlooked.

Wednesday, January 22d—2 p.m.

GENERAL SESSION ON DEFENSE: Senator Henry Parkman, Jr., presiding. Speakers at this session included the Honorable Charles E. Merriam, member of the National Resources Planning Board, and Honorable Daniel W. Hoan, Associate Director of the National Defense Commission, on National Defense. Mr. Hoan, a former mayor of the City of Milwaukee, spoke "on the part of the States and cities in the National Defense Program." He emphasized that preparation for National defense requires cooperative effort, with unity of purpose throughout the country. He reviewed the work of the Division of States and Local Cooperation for the National Defense Council and characterized its method of cooperation as the essence of the democratic way.

"The division gives no orders: The people themselves, through their representatives in the State Capitol or the town hall, solve their own problems, using the division personnel as a channel of information concerning Federal plans and policies and for technical advice of various fields."

Wednesday, January 22d—7.30 p.m.

DINNER SESSION: Governor Harold E. Stassen, of Minnesota, presiding. The speaker at this session was the Honorable Frank Knox, Secretary of the Navy, who declared that "the preservation of our liberty and the future of our form of Government is now at stake." He said in part:

"In this task of supporting President Roosevelt in this crucial hour, there should be and there must be a spirit of National unity which sweeps aside all vestige of personal feelings, of partisan differences, of sectional hatreds and of class distinctions. If we, as a Nation united, embrace the high aims and purposes of the hour, we shall all succeed together. Likewise, if we fail, we shall all go down together. We must not fail."

Secretary Knox concluded his address as follows:

"Almost literally, America stands at the crossroads. Whether we like it or not, the preservation of the sacred fire of liberty has become our responsibility. We can discharge this responsibility right now by an all-out program for production of supplies and munitions for the use of those who are actually fighting the battles for human liberty in Europe and Asia, and for our own defense. Or, we can shilly shally and talk and debate and conjure up idle forces that have no basis in fact until those who are fighting are overwhelmed and then we must take up the burden and fight ourselves, lest the sacred fires of liberty entrusted to our care shall go out. Or, we can adopt still a third choice and fail to help now and refuse to fight later, and then spend everything we have and that we can produce to build a wall around the United States and live within that wall, armed to the teeth, completely surrounded by totalitarian powers intent upon our final subjugation."

These are the three roads, and the only three roads, that converge at the point where we stand tonight. In such an hour, if we are worthy of what we have, if we are wise as the trustees of the institutions we have inherited, and finally, if we are merely shrewd and give way only to selfish considerations, we will implement, without delay, President Roosevelt's noble declaration: 'In the face of great perils never before encountered, our strong purpose is to protect and to perpetuate the integrity of Democracy. We do not retreat. We are not content to stand still. As Americans, we go forward, in the service of our Country, by the Will of God.'"

Thursday, January 23d—10 a.m.

GENERAL SESSION ON TRADE BARRIERS: Honorable Edgar A. Brown, Chairman of the Board of Managers of the Council of State Governments, presiding. Senator Robert C. Hendrickson, of New Jersey, vigorously attacked the growing Balkanization of this Country through the erection of barriers to interstate trade by the States themselves, and pointed out that the campaign which the Council of State Governments has waged on them during the past biennium has already had beneficial results. He pointed out that much remains to be done, and said, in conclusion:

"If we are to move from plurality toward unity from *ex uno plura* to *E pluribus unum* we must continue, to the end, in the destruction of these legal-economic frontiers within America."

"If we are to maintain a common defense on the home front in this crucial hour when 'National defense' is the keynote of every public utterance, and preserve free government for posterity, all interstate trade barriers of every nature and description must yield to that 'more perfect union.'"

In a statement which he was unable to deliver because of illness, Congressman Hutton W. Summers warned the Delegates that:

"It must be borne in mind, as a practical matter, that there is a natural law, universal in its operation, which will not permit power to do a thing to remain where that power is not properly exercised. There is no more important task for the State Governments, from the standpoint of their self preservation as the responsible agencies of democratic government—and the only ones which we have or can have in our system for general governmental purposes—than to demonstrate their ability, acting individually and in cooperation with each other, to remove the abuses arising from what are known as Interstate Trade Barriers."

Vigorous discussion of the situation in regard to trade barriers took place. Among the discussants were Brown of Pennsylvania, Ostertag of New York, Van der Vries of Illinois, Bolens of Wisconsin, York of Texas, and Rankin of North Carolina.

Thursday, January 23d—2 p.m.

Senator Edgar A. Brown convened the General Business Session of the Assembly at 2 p.m. Mr. Ellwood J. Turner presented the report of the Resolutions Committee. Copies of the resolutions and reports adopted are attached, together with the Report of the Executive Director, which was summarized by Frank Bane at this concluding session.

On the motion of Judge Hartshorne of New Jersey, reports of the Chairmen of the Cooperation Commissions were ordered to be filed for publication in proceedings. The Assembly adjourned at 4 p.m.

Conclusion

MR. PRESIDENT AND GENTLEMEN OF THE SENATE: Your Resolution No. 23 also included a command that your Delegates "especially call the attention of the council to the requirements of the Social Security Act for a State plan of Old Age Assistance, relative to determination of need and personal standards." Your Delegates were unable to bring this matter before the council as the agenda was complete prior to our arrival and due to the overwhelming desire of the council to give as much time to National defense problems, it was impossible to present this matter for discussion to the council.

However, your Delegates wish to report the following action on their part. Your Delegates called upon Congressman Lea, Chairman of the California Delegation in Congress, and through his cooperation a conference was arranged between 16 of California's 20 Congressmen and two representatives of the Social Security Board, in which was discussed for three and one-half hours, the question of the so-called merit rating and personnel standards, which the Social Security Board is attempting to impose on the counties in California. Your Delegates emphatically opposed the policies of the Social Security Board in this matter and argued that such an imposition in California was contrary to the Constitution of this State. Your Delegates also pointed out to the representatives of the Social Security Board that this imposes upon California such arbitrary restriction designed to force California to, in effect, reduce its \$40 Aged Aid Program by limiting the privilege of recipients to earn \$15 from other sources, would simply provide fuel for the fires of the demagogue and purveyor of wild utopian schemes, which has had California in a social turmoil for several years. The net result of this conference was concluded by the statement from several members of the California Delegation that your Delegates return to California and adopt such laws dealing with the so-called merit system as the Legislature deems to comply with the Federal act and that our Congressmen would first attempt to secure approval of the Social Security Board and second, if necessary, they would try to amend the Federal statutes dealing with this matter.

MR. PRESIDENT AND GENTLEMEN OF THE SENATE: Your Delegates were given, pursuant to Senate Resolution No. 23, three hundred seventy-five dollars (\$375) each to defray the cost of attending the Council of State Governments. The following amounts have been returned to the Controller.

Senator Wagy—	
Advanced	\$375 00

Balance returned to Controller.....	\$125 85
Senator Mayo—	
Advanced	\$375 00
Expenses	244 25
Balance returned to Controller.....	\$130 75
Respectfully submitted.

SEC. 2. As a guide to the interpretation and application of the chapter enacted by this act, the public policy of this State is declared as follows:

The practice of large firms and corporations utilizing their purchasing powers to secure merchandise for employees and friends of employees at a price less than the retail price inevitably tends to foster monopolies and injure retail merchants. The practice results in discriminations between purchasers of the same quantities, and has the same effect as a secret rebate, or an unearned discount. In many cases the wholesaler or manufacturer is deceived as to the true status of the purchaser.

The Legislature therefore declares that the public good and general welfare of the citizens of this State require that free competition be secured and protected by the enactment of this measure."

SENATE CHAMBER, SACRAMENTO, April 28, 1941

MR. PRESIDENT: Your committee on Transportation moved and unanimously carried a motion to adopt the report of the subcommittee of the Senate Transportation Committee on the Inclusion of Additional Roads into the State Highway System, and requests the report be printed in the Senate Journal.

McCORMACK, Chairman

The following report was ordered printed in the Journal:

**Report of the Subcommittee of the Senate Transportation Committee on
the Inclusion of Additional Roads into the State Highway System**

*To Senator Thomas McCormack, Chairman
Senate Transportation Committee*

Your Subcommittee of the Senate Transportation Committee has carefully and thoroughly investigated the various bills introduced in this Fifty-fourth Session of the California Legislature and pending before the Senate Transportation Committee, proposing additions to the State Highway System. After considering all pertinent facts and arguments with respect thereto, this subcommittee respectfully recommends that no additional road mileage be added to the State Highway System at this time, either by the Senate or the Assembly.

The roads proposed for addition to the State Highway System in the bills thus far introduced total 875 miles of which 693 miles are located in the North 45 County group and 182 miles in the South 13 County group. About 57 miles are within city limits.

In arriving at this decision, the members of this committee have attempted to evaluate this problem upon the basis of what would be best for the State as a whole rather than from any partisan or local consideration.

The large majority of the road mileage proposed for inclusion is of low-type improvement and carries relatively light traffic. Most of these roads are primarily for local service and will contribute little, if any, benefit to the solution of our pressing State-wide traffic problem.

Each road or street proposed for inclusion was subjected to the following critical yardstick. Firstly, would it rationally and definitely fit into the present connected and correlated State Highway System? This meant that the road should confer State-wide traffic benefit, for it is obvious that local benefit is, and should remain, a problem for local solution. Secondly, was the additional mileage involved either actually carrying, or potentially capable of carrying, sufficient State-wide traffic to warrant the immediate expenditure of highway funds for its improvement to standards commensurate with its use.

Otherwise, in our opinion, the mere act of including a road or street into the system will accomplish nothing toward its improvement, which actually is the primary purpose behind most attempts to transfer such facilities from local control to State control. This is obvious for the reason that each mile of new State highway must compete for allocation of funds with approximately 14,000 miles of the existing system on the basis of traffic needs. If the traffic is light and local in character on a particular road, its priority will be so low as to preclude any consideration of its improvement. Especially is this true when it is realized that many important and desirable improvements of high priority are being postponed each biennium due to lack of sufficient available funds.

After subjecting each of the projects proposed for inclusion in the State Highway System to this critical scrutiny and examination, it was our opinion that none of them properly qualify for consideration under the above standards.

Moreover, other and very compelling arguments have been developed as a result of our investigations which plainly indicate that present conditions are not propitious for considering an increase in our State highway mileage. The most important of these arguments are summarized briefly as follows:

1. The present National defense emergency has put an additional great strain upon the financial resources of the State Division of Highways due to the large number of Defense and Military Training Campments established in this State. Highway transportation facilities are a first essential for these developments.

It has been estimated that over \$28,000,000 will be required to construct the access roads alone, for these defense centers.

While Federal allocations to provide these facilities have been urged upon the Congress, no action has yet been taken, and there is a strong possibility existing Federal aid revenue may be earmarked by Congress for the construction of the most important of these roads in which event there would have to be eliminated approximately \$7,600,000 worth of projects from the present proposed highway construction budget for the ensuing biennium. The disastrous effect of such an action on the State Highway System does not require elaboration.

That this danger is a real one is evidenced by the fact that Congress has already diverted Federal Aid Feeder Road Funds to cover the survey and plan costs for these roads.

2. After years of effort, in 1933 the total secondary highway mileage was balanced between the northern and southern group of counties.

Indiscriminate additions of mileage will immediately upset this balance to the detriment of orderly planning, and will inevitably lead to the indefensible practice of proposing further unjustifiable additions under the argument it will restore the balance.

3. The most frequently overlooked or ignored consequence of the transfer of a road from local jurisdiction to State jurisdiction is the unfair transfer of financial obligation which results. That this is no minor matter may be perhaps better realized in view of the following facts:

The division of the Motor Vehicle revenue between State and county has remained unchanged since the inception of the gas tax; the State taking two thirds, of which it must in turn give one fourth to municipalities and the counties taking one-third without further obligations.

Accurate and reliable statistics show that of the entire road mileage of the State, 14 per cent is under State highway jurisdiction and 86 per cent under county jurisdiction. Before unjustified conclusions are drawn from this fact, these same statistics show that from the standpoint of traffic use, which is the correct measure since the motor vehicle operator "pays the freight" *the State Highway System, comprising only 14 per cent of the mileage, carries 80 per cent of the traffic, while 86 per cent of the mileage comprising county highways carry only 20 per cent.*

From these facts two obvious conclusions appear evident. First, that practically all, if not all, *important roads or streets*, are now included in the State Highway System.

The inequity of the policy of continually transferring county roads to the State without a commensurate increase in the State's share of the tax revenue is even more reprehensible, when consideration is given to the fact the inclusion of over 6,800 miles of the most important, and hence most expensive, county highways to the State Highway System in 1933 transferred a tremendous financial burden from the counties to the State, with no consequent adjustment of the tax revenues.

Moreover, it must also be admitted that the standard of maintenance demanded by the traveling public of State highways is much higher and more expensive than is usually provided on county roads; hence the maintenance expenditure by the State upon county road transfers are in a much higher ratio than the county provided, thus adding an increased burden on already overtaxed State highway revenues.

Finally, it is very seldom, if ever, that the roads and streets proposed for inclusion are of a character involving cheap construction costs. Improvements on roads of this nature can usually be secured from the local authorities. Usually the road or street advocated for inclusion will require a large expenditure to construct to adequate standards, and thus represents a "pig in a poke" as far as the State is concerned.

In view of all of these facts the conclusion seems inescapable to your committee that an adjustment in the division of the highway gas tax providing a larger share for the State Highway System should be made if any additional roads or streets are to be added to the State's burden.

4. Present day traffic is so great as to demand a much greater expenditure per mile for modern highway improvements. This has materially reduced the mileage of new improvement accomplished each year. As a result, there is definite evidence that obsolescence and depreciation are rendering a greater mileage of highways inadequate each year than can be replaced or improved with present revenue.

This inevitably requires an increase in the maintenance expenditure necessary to keep the roads passable which, in turn, reduces the amount available for construction, the net result being a constantly decreasing sum available for highway improvement.

Your subcommittee does not believe this problem should be further aggravated by increasing the financial burden through an increase in the highway mileage.

5. Finally, it must be recognized that the enormous increase in the mileage of the State Highway System in 1933, at which time the mileage was practically doubled, has resulted in imposing a tremendous burden upon the present motor vehicle tax funds allocated to highways. It must not be forgotten that subsequently, by legislative enactment, one-half cent of the State's share of two cents per gallon has been definitely allocated to maintenance and construction of highway routes and major city streets within municipalities.

A continuance of the policy of decreasing the revenues and increasing the obligations of the Division of Highways can not, in our opinion, be further maintained or defended in the light of existing facts, when the net result is being increasingly

reflected in lower standards of construction and a growing mileage of obsolete highways and bridges upon the primary highway transportation network of the State.

The State Highway System is too vital, both from the standpoint of our internal economy as well as for National defense in these trying times, to justify or excuse the imposition of a greater burden on present overtaxed financial resources.

For the above reason, your subcommittee wishes to unanimously recommend that the Senate Transportation Committee as a whole definitely go on record as recommending against the favorable consideration of any additions to the State Highway System at this time.

MR. PRESIDENT: Your Committee on Rules, to which was referred a message from the Governor relative to tax-deeded lands in California, dated April 22, 1941, and a message from the Controller relating to the above subject and also dated April 22, 1941, has had the same under consideration and respectfully recommends that said communications be printed in the Senate Journal.

COMMUNICATIONS

Pursuant to the report of the Committee on Rules, the following communications were ordered printed in the Journal:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE

SACRAMENTO, April 22, 1941

*To the Honorable Members of the Senate
Sacramento, California*

GREETINGS: I transmit to you herewith copies of the preliminary report received by the Director of Finance from his staff of accountants upon the findings of their investigation so far conducted into the manner in which tax-deeded lands have been administered by the State Controller. This report was referred to in my communication to you on this subject dated March 4, 1941.

I have asked the Attorney General to review the legal aspects involved in the Controller's administration of tax-deeded lands in California.

In the preliminary report received from the Department of Finance which I am submitting herewith I direct your attention to the attached summary of findings.

It has been pointed out by the Director of Finance that possible public hearings, calling witnesses, and requiring testimony under oath, appears to be the proper means of eliciting complete factual information on this important subject.

Respectfully submitted.

CULBERT L. OLSON, Governor of California

Summary of Investigation Made by Department of Finance of Tax-Deeded Lands

In extension of a preliminary report on progress of audit of the "Redemption Tax" Division of the Office of the State Controller, a proportionately small sample of examples of properties and transactions concerned was investigated.

The sample was extensively heterogeneous, if proportionately small. Costs attendant upon effort expended, and the opinion that extension of investigation should be preceded by determination:

- a. Is the purpose of further investigation development of information as a basis for legislation, initiation of action to remedy past error, administrative change to improve future achievement, some other end, or a combination?
- b. Specifically or categorically, what further information is required? For what purpose? Is the probable utility worth the probable cost?
- c. Who can best direct and who best perform any further investigation to serve the most public interests best at least cost?

have inspired confinement of our investigation near a minimum required by the investigators for estimation of the nature of problems involved. Quantitative estimation in any exact measure or terms was not practicable.

In consequence of extreme minimization of effort while endeavoring to make such effort as was expended provide as comprehensive coverage as we were able, and in consequence of the variety of source and approach utilized, developed data is lacking in uniformity of pattern and degree of completeness. Several attempts at systematization, summation, and comparative statement were dropped incomplete as impracticable to provide results worth effort entailed. They tended to detract value. Because we estimate all requirements prior to the heretofore requested determinations can be adequately served by presentation of the investigator's notes, photographs, maps, documents and comments without restatement, refinement, or extension except in response to specific questions which may be inspired, it is requested that this communication and the appended volumes of investigators comment and indexed field notes, illustrations and maps be accepted as a report for present purposes.

Available data can be marshaled, extended, restated as necessary and submitted in a report suitable to such purpose(s) as may be defined. Endeavor to submit a polished all purpose report of presently available data is thought probable to be inadvisable.

Epitome

The statutes give the Controller exclusive authority to administer, especially to let, maintain and conserve, real property deeded to the State in consequence of non-payment of taxes.

The Controller and his subordinates have appeared to observe normal restrictions upon State administrative acts; including restrictions in matters of civil service, contract, purchase, insurance, receipt and disbursement of funds, delegation of discretion, etc., mainly in order to circumvent them by devious procedure or non-feasance. Motivation probably included accommodation of administration to concepts of equity, justice and economy relatively little trammelled by statutory law, and endeavors to avoid issues resolution of which was probable to disturb tenure or investiture of interest of the Controller, his subordinates, or his supporters for mutual benefit. Inadequate knowledge of circumstances, tolerance for omission of duties assigned by law, magnitude of the problem and capability of personnel, and inertia affected results.

Results have also been affected by involvement of law, procedure and practice of political subdivisions, including special districts, cities and counties, and of the State in most matters relating to tax assessment, collection and delinquency; to recordation, transfer, acquisition, and retention of title to real property; and to default, bankruptcy or insolvency, trusteeship, and entail.

The examples investigated appeared to indicate that the manner of administration has inequitable benefited special interests including irrigation districts, tax dodgers, sharpers-at-law, and connivers at and contrivers of acquisitive intrigue in public business, and coincidentally, numerous persons who received benefits without quest or action on their part.

It is confidently estimated that the net revenue to the State would have been greater; return of tax-deeded property to private ownership and taxation faster; the average and aggregate volume of tax deeds and delinquencies smaller; and the adjustment of legislation to requirements of public interest, equity, and individual justice faster and better, if administration had adhered as closely and diligently as was practicable to all directions and restrictions which a lay reader would interpret the Constitution and statutes to incorporate.

Evaluation or quantitative estimation is difficult, but it seems probable to the investigator that administration of laws as faithful and diligent as practicable would have conserved or produced benefits worth to the general public several million dollars more than such administration would have cost.

It is estimated that administration of small residence properties may have the greatest general social importance. Investigated examples are cited extensively, and pertinent items include pages 8, 9, 15, 17, 19, 21-22, 36, 52, 53, 54 and 55, of comment and pages 7-23, 35, 60-61 and 127 of field notes.

In aggregate of financial importance of leasing transactions, properties leased or deeded to irrigation districts may loom largest. Comment and notes include, among others pages 17, 23-30 of comment and pages 164-207 of field notes.

Commercial properties, including hotels, apartments, athletic and fraternal club buildings, etc., were an important problem, comment concerning which includes: Pages 9, 10, 11, 12, 13, 14, 15, 18-19, 20-25, 39-42 of comment and pages 1-5, 12, 19, 22, 25-28, 62-71, 75, 142, 162 of field notes.

Comment on agricultural properties other than those in irrigation districts, includes pages 16, 17, 18 of comment and pages 45, 47-48, 101, 143, 149-151, 154-157, 159-161 of field notes.

Comment on large private residential properties includes pages 14, 16, 56, 57 of comment and pages 49, 75, 90, 122 of field notes.

Comment on examples involving letting of numerous parcels to one person or organization at a rent so low that subletting showed a large apparent profit, in addition to comment on irrigation district, includes pages 15, 16, 17, 20, 21 of comment and pages 78, 38, 51, 57, 73-74, 152-153 of field notes. One oil property is referred to on pages 15 and 58 of comment.

An extraordinary selection of properties upon which special action to clear title was sought is referred to on pages 13 and 14, of comment and pages 109, 140, 141 of field notes.

Extensive ameliorations partly prompted by knowledge of, and possibly slightly assisted by, audit and preliminary investigation undertaken by the Department of Finance have already occurred. Earnest, public interested legislative, administrative, judicial and informative efforts which may be directed toward California tax delinquency and attendant property ownership problems are almost certain to achieve proportionately great benefit.

Introduction

All State functions affecting real property which has been deeded to the State in consequence of nonpayment of taxes have been assigned to the State Controller by Section 3773 of the Political Code. Thereunder the Controller is given sole authority and discretion in rental and conservation of such properties, together with the duties of maintaining records of properties and transactions, fixing and collecting rents, etc., and generally promoting return of such properties to normal ownership and taxation.

The records maintained were too lacking in completeness and currency to permit even approximate verification of the number, valuation or description of properties involved. Employees of the Controller expressed the estimate that approximately 250,000 parcels are subject to such control by the Controller. Assessed valuation of some individual parcels amounted to hundreds of thousands of dollars. Hotels, athletic and fraternal club, apartment, factory, home and farm properties are included.

Examination of records, documents and files pertaining to letting of tax-deeded property, collection of rents and disposition thereof; and survey of records of properties not recorded as rented by the Controller; disclosed that records did not reflect numerous particulars concerning use or occupancy of properties, related agreements, or even the number, kind and condition of properties with respect to which the Controller had duties and authority. Despite meagerness, incompleteness, and unsuitability, in the opinion of the auditors, to requirements for administrative information or evidence of fidelity and diligence, records disclosed numerous actions and transactions difficult of reconciliation with restrictions which the statutes and Constitution appear to provide.

The auditors reported to the Director of Finance their estimate that there existed numerous circumstances of use, occupancy, and finance pertaining to properties during periods they were tax-deeded and hence subject to administration by the State Controller, which circumstances merited study but were not reflected adequately or at all in records presented by the Controller for audit. Pursuant to Section 654 of the Political Code, which provides in part: " * * * the Department of Finance * * * shall whenever it deems it necessary * * * institute * * * such investigations and proceedings as may be deemed proper to conserve the rights and interests of the State." The Director of Finance requested that audit findings be supplemented by preliminary investigation adequate to permit determination whether a formal administrative or legislative investigation should ensue.

Such a preliminary investigation has been undertaken, and is reported herein. The magnitude of the subject and limitations of funds, staff and time prompted confinement of the scope of the investigation to selection of examples very limited in number in proportion to those comprising the field. Nevertheless, indications of: (a) evasion of legal restrictions by devious procedure, (b) avoidance of deter-

mination or adjudication of pertinent legal questions by administration calculated to be so extremely lenient that no person would be so adversely affected as to litigate any point of divergent interest or interpretation, or agitate for amendment of statutory provisions of questioned suitability; (c) letting of property for amounts markedly lower than it was currently possible to obtain as rent for such property; (d) lack of any endeavor whatsoever to collect rent from users or occupants of some properties and frequent acceptance of a small portion of an amount such as ordinary commercial practice would require as full settlement for unnegotiated prior occupancy or use by persons with whom agreements for current and future use and occupancy were negotiated; (e) and many other acts far from incontrovertibly consistent with the purpose of returning property to normal ownership and taxation expressed by statute; all were so very frequently encountered in examples investigated that it is confidently estimated that extension of the investigation to cover any increased proportion of tax-deeded properties would augment the number of similar discoveries, but not materially alter the impression of the whole gained from the examples investigated.

The auditors confidently, if inexactely, estimate that, as a result of the manner in which the Controller has exercised or in many instances failed to exercise the exclusive control over tax-deeded land vested in him by Section 3773 of the Political Code, persons and organizations other than the State have received from such property as rentals, returns, or profits of kinds which statutes seem to intend to belong to the State, sums in excess of the State's returns by a sum almost certainly over \$1,000,000, very probable over \$2,000,000, and quite possibly much larger.

To conserve funds, staff, and time, investigation of each item was minimized as far as was deemed consistent with development of information of primary significance in relation to such item. In consequence summation and tabular presentation and comparison of the partially complete information concerning the properties investigated would be both difficult and probable to give a misleading impression of completeness. Therefore, exposition of what are deemed the more significant particulars of examples of individual transactions and properties will be relied upon to communicate what was discovered by the investigation, and relatively few tabulations and summaries presented. In addition to the particulars stated in this report, there is submitted herewith an indexed volume of over 200 pages of related field notes, maps, illustrations, etc., which contains added particulars concerning some properties and transactions set forth herein, and in addition particulars of numerous similar items.

The investigator's estimate, that almost irrespective how far the investigation might be extended, the nature and significance of findings would remain closely similar to that thought to be typified by citation of examples in the pages which follow, is again emphasized here. If requested amplification of this report of discoveries resulting from this preliminary investigation, or extension of the quantitative or qualitative scope of the investigation will be undertaken. It would, however, be our recommendation that full consideration be given the advisability of having further investigation which may be required conducted under formal legislative or gubernatorial auspices.

Comprehensive Qualification

The extent, variety, and complexity of problems involved, incompleteness of even directly pertinent factual data (leaving out of consideration data of kinds necessary to orientation and proportion with reference to government, society, and economy in general), occasioned by the preliminary nature of our investigation, have insured exclusion from our report of substantially all opinions except attempts to generalize concerning the data of which examples were investigated, and to estimate the probable nature of uninvestigated data from the proportionately very small basis of data known.

We rely upon all statements of facts in this report and the accompanying supplement of investigator's notes, and have developed them independently or verified them to the extent permitted by available time and staff. It has been our aim in selecting examples for exposition in this report, to present without reinforcement by more than minimum citation of similar examples where numerous examples of closely similar nature were encountered, such facts as were known and estimated to be typical as might permit a reader to form for himself the administrative evaluation required, and yet realize the incompleteness of the basis therefor provided by this preliminary investigation.

All persons consulted have expressed opinions that procedures required by existing laws are cumbersome. Interests and equities differ from those which affect similar properties while normally owned and taxed. This has affected administration, and may be accorded such consideration as is deemed merited in any judgment of deviation from or "tempering of" laws by administration.

Extension of Investigation

In connection with possible extension of investigation of matters pertaining to tax-deeded land, several aspects may merit consideration. The purpose should be determined. If that be remedial legislation, the investigation should be done under

legislative auspices. If remedies for past transactions are sought, it should be determined what remedies for situations such as those described are available, what information is requisite, and whether the Legislature, Governor, Attorney General, or Department of Finance should conduct the investigation. If administrative change of policies and procedures be sought, that might be achieved by collaboration between the Governor, Attorney General, Controller, and Department of Finance upon the basis of data now available. It is probable that legislation will be deemed necessary. For that reason, conduct of any further investigation under legislative auspices might best meet combined requirements.

Evasion of and Deviation From Laws

Practices and policies of the Controller which appeared difficult of reconciliation with existing law were numerous. Disposition of questions by adjudication or any normal means, such as written opinions of the Attorney General, had been avoided.

The Controller sought to employ leasing representatives on a commission basis. Civil service provisions in the Constitution and statutes appeared possible to preclude appointments of individuals desired on terms desired. The Controller leased, with right to sublet, all land in several counties to several individuals for "\$1 (per year) and such additional consideration as the lessor (the State of California acting by and through the State Controller) shall approve." With some exceptions, all in the "lessee's" favor, the "Lessor" (Controller) approved 75 per cent of amounts collected from "sublessees" as the "additional consideration," and so achieved, to all intents and purposes, employment of representatives selected without reference to civil service, and allowance of 25 per cent commissions, which had aggregated approximately \$70,000 to December 31, 1939, as remuneration for their services.

Especially in Los Angeles and San Diego Counties, technical questions relating to assessment of taxes cast some doubt upon validity and effect of deeds to the State in consequence of nonpayment of taxes. Instead of welcoming determination of legality and validity of tax deeds by test adjudication it appeared that the Controller so leniently administered rental provisions, especially whenever a dispute arose, that former owners and lessees were thereby induced to refrain from litigation.

Extensive further comment on matters of law appears on pages 1 to 7 of the investigator's comments.

There are appended to the original of this communication one 58-page volume of investigator's comments and one 294-page volume of field notes, illustrations, maps and memoranda. Return thereof for retention with audit working papers is requested.

We shall be glad to marshal, extend and state as necessary for such purpose(s) as the determination(s) requested at the outset of this communication may require the data requisite thereto, and submit an appropriate report in finished form, when such determination(s) may be communicated to us.

STATE OF CALIFORNIA, OFFICE OF THE CONTROLLER

SACRAMENTO, April 22, 1941

*To the Honorable Members of the Senate
State Capitol, Sacramento, California*

GREETINGS: The Governor, in a letter to your honorable body on March 4th, announced that at his direction an investigation of the State Controller's administration of tax-deeded property had been made by the Director of Finance.

A report on this investigation, which he had made public six days earlier, was given by the Governor as the basis for a proposal that control of this distressed property be lifted from the independently-elected State Controller and handed over to a commission dominated by the Administration.

Neither the Governor nor the Director of Finance discussed the report with me before it was made public or provided me with a copy of it as required by law. When, 10 days after its publication, I had not been furnished a copy I so notified your honorable body.

Not until March 12th, two weeks after its public release, did I receive a copy of the report.

Accusations of a serious nature are made in that report. Detailed statements and financial schedules purporting to show huge financial loss to the State through the Controller's handling of specified parcels of tax deeded property are included.

I have studied the report of the Department of Finance carefully. Civil service employees of the Controller, in an effort to learn the facts concerning the rental and administration of each parcel of property, examined records which had been equally available to the Department of Finance auditors and consulted qualified and independent authorities on property values, rentals and management.

A detailed report of our findings has been furnished to the Director of Finance and to the chairman of the Assembly's Governmental Efficiency and Economy Subcommittee on Tax-deeded Lands, and is now submitted for the consideration of your honorable body. The report is documented by photostatic copies of deeds, correspondence and other official records together with statements of appraisals from

authorities. I am now prepared to go into the matter fully with the Legislative Committee to which it has been referred.

The evidence indicates that the Department of Finance report made under the Governor's direction is based upon careless investigation, inaccurate reporting and irresponsible accounting, obviously prepared for the purpose of placing control of the distressed holdings of unfortunate property owners in the hands of the State Lands Commission which the Governor dominates.

By employing false statements the report creates the impression that huge losses have been suffered by the State through the Controller's handling of tax-deeded property.

The Department of Finance report reads:

"The auditors confidently, if inexactly, estimate," . . . (losses in a sum) . . . "almost certainly over \$1,000,000, very probably over \$2,000,000, and quite possibly much larger."

That statement and others of an equally serious nature are not supported by the facts as disclosed by our own civil service employees.

Glaring errors of fact are contained in the Governor's report:

(1) Asserted losses were computed on property not involved in this problem. In San Diego and elsewhere the Department of Finance auditors listed property which was not tax-deeded and over which the Controller never had jurisdiction.

(2) In many instances, false deed dates were used. Accountability for rent of 18 properties was charged for a five-year period during which each was privately owned. False dates were used although the correct ones were known to the auditors.

(3) Incorrect property income figures were used on commercial property. The auditors ignored costs of operation and upkeep and used gross revenue figures as rental value of property.

(4) Erroneous property descriptions were used. As a result accountability was charged to the Controller for rent on entire properties, of which the State actually owned only a small portion.

(5) Accountability likewise was charged to the Controller on property which had previously been removed from the Controller's jurisdiction by redemption proceedings.

(6) Inaccurate appraisals of rental values were made on acreage to support charges of asserted losses.

The Governor's Department of Finance report appears to be based upon the fallacy that the primary object of the Tax Deeded Land Program is to squeeze the last drop of money from the unfortunate property owners who are struggling to hold their homes or business property.

Actually the main purpose of the Controller's program is the return of property to the tax rolls in order that individuals may salvage their holdings and cities and counties may regain their tax bases.

Success of our program is proved by the fact that \$7,500,000 worth of nontax-producing property has been returned to the rolls in the last three years alone.

To keep custody of and retain in good repair the unfortunately large volume of tax-deeded property until the financially embarrassed owner can redeem it is of prime concern. Rather than allow buildings to remain unused and to fall to pieces for lack of care the Controller has rented them under terms which require the tenant to bear the expense of maintenance and repair in addition to rental. Preservation of the property thus has been assured without expenditure of public money.

Taxpayers' money likewise has been saved for instance through an agreement between the Controller and the Los Angeles County board of supervisors whereby low value urban property has been used for housing of indigents whose care otherwise would have been a drain on public funds.

Rental of tax-deeded property is difficult because of its nature. The bulk of it unfortunately is almost worthless from an income point of view. To secure tenants willing to pay for use of property which over a period of many years had produced insufficient money to pay even the taxes is difficult and in many cases impossible.

In commercial property this is particularly true. Unless a tenant can be assured of making a small profit or at least of breaking even through operation of a property he will not lease it.

Because the record owner of property can take possession at any time he chooses to start redemption through payment of a small portion of the delinquent taxes, the Controller is legally unable to guarantee a renter tenancy for a month, a week or even a day.

Merchants, business operators, farmers and working people alike are reluctant to occupy or install equipment or plant crops on property from which they can be ejected on a moment's notice. Under these conditions it obviously is impossible to obtain the same rental from tax-deeded property as from normal productive property in which a tenant securely can invest his money with assurance of tenure.

Because of this it is especially difficult to rent farm lands or hotels, clubs, apartment houses and other commercial property, the operation of which require furniture and equipment. Outsiders refuse to risk an investment on insecure tenancy.

thus the owner of furniture or equipment which may have outfitted a property when it became tax-deeded is the only person to whom the property can be rented.

Allowance must be made for this situation in determining what rent can be obtained from commercial property.

Questionable validity of tax deeds makes it impossible to collect more than a nominal rental in some cases. In Los Angeles and San Diego counties the court held that the taxing procedures were invalid with the result that tax deeds issued in those particular years are of doubtful value. The Controller was thereby prevented from collecting any rent on some properties.

The threat of court action to invalidate the tax deed has in some instances forced the Controller to accept whatever rental the tenant was willing to pay rather than none at all. In certain cases the Attorney General advised the Controller to follow that course.

The Governor's report questions legality of the system adopted by the former Controller for management of tax-deeded property by representatives who received as compensation a commission amounting to 25 per cent of rentals collected. Nothing was paid them for the handling of the property redeemed through their efforts, which amounted to as much as 70 per cent of the property managed. It must also be realized that the full cost of maintaining office facilities and employees to carry on this work was borne by the agents themselves.

The plan for the commission agents was discussed with and approved by Department of Finance attorneys and by the Attorney General before being placed in operation.

Criticism by the Department of Finance that the 25 per cent commission for property management was excessive seems odd in view of the fact that the Department of Finance itself, under authority of Section 662 of the Political Code, has for years paid and is today paying a 50 per cent commission for the collection of delinquent property taxes due the State.

Although I had and continue to have complete faith in the integrity of the gentlemen who served the State as agent, I requested funds with which to hire full-time civil service employees to carry on this function. As soon as the Department of Finance made the requested appropriation available I immediately employed a full-time civil service staff.

The Department of Finance report specifically mentions the administration of tax-deeded property in Los Angeles County by the former Controller's agent, Hayden F. Jones. Our investigation indicates that his operations were entirely in conformity with the former Controller's agreement previously approved by the Department of Finance. We commend Mr. Jones for the manner in which he handled a difficult problem.

There are not now and have not been for nearly a year any commission agents handling tax-deeded property for the State Controller.

The Department of Finance investigation, started in October, 1939, has involved the expenditure of public funds to pay salaries and traveling expenses of a crew of auditors over a period of 18 months. It would be interesting to know what the compilation of this information, much of it wholly inaccurate and leading to erroneous conclusions, has cost the taxpayers of the State.

During the course of the investigation, the Department of Finance auditors removed without authorization official records and documents of the State Controller, some of which have not been returned.

The Controller firmly believes that every agency of Government should be audited periodically and completely. The records of this office are open to examination at all times. As a protection to the taxpayers of the State and to the office, I feel good business practice demands such examination. I welcome any sincere audit, but object strenuously to the misuse of such a function.

The report of the Department of Finance illustrates graphically the urgent need of an independent means of auditing all State departments.

Respectfully,

HARRY B. RILEY, Controller

If organized or incorporated after December 31, 1940, it shall have been in existence for a period of at least five years.

(e) It does not in the solicitation of applicants for membership advertise, offer, or hold out as an inducement to membership that membership in the association or corporation will reduce the cost of workmen's compensation insurance.

The commissioner shall not approve for issuance to an approved group master or individual policies which provide for extensions of credit for periods beyond those which are reasonable and customarily allowed in the case of policies not issued to approved groups. If any member of an approved group or the association or corporation to which the group belongs fails to pay the premiums for workmen's compensation insurance as provided in the master or individual policies issued to the association or individual members of the group, the insurer shall within five days thereafter notify the commissioner of that fact.

If a master policy is issued to an approved group, the master policy shall provide that each member of the group may designate his own insurance agent or broker to participate in such commissions, if any, as may be allowed by the insurer with respect to that member's insurance. Such commissions shall in no event be less than those which the insurer would have paid with respect to that member's insurance if that member had not availed himself of the right so to designate his own insurance agent or broker.

If the commissioner after hearing upon reasonable notice finds that a group which has been found by him to be an approved group no longer constitutes such an approved group by reason of noncompliance with any of the provisions of this section, or by reason of failure to meet the premium payment requirements of the policy or policies issued to the group or its members, he shall revoke his approval of that group and order the insurer to cancel the contract of insurance and, in the case of individual policies issued to each member of the group, order such individual policies canceled.

Upon receipt of an order to cancel insurance issued pursuant to this section, the insurer to whom it is issued shall cancel it in accordance with the provisions of the policy or policies involved.

It is the intent of this section that where coverage is effected by a master policy or by individual policies, the failure of one member or policyholder to meet the premium payment requirements of the policy and the failure of the association or corporation to meet its guarantee of such payment, shall render the entire group ineligible for further treatment as an approved group."

Amendment read and adopted.

Bill ordered printed, and re-referred to Committee on Financial Institutions.
